TRANSFER OF SPECIAL EDUCATION PROGRAMS

PURPOSE

To discuss the implementation of Assembly Bill (AB) 2947 [Chapter 35, Statutes of 2006, (Goldberg)].

BACKGROUND

The School Facility Program (SFP), under the Leroy F. Greene School Facilities Act of 1998, provides funding for facilities to school districts that demonstrate an insufficient amount of seating capacity versus their five-year enrollment projections. Each school district that elects to participate in the new construction program must submit to the board a one-time report of existing school building capacity, and perform ongoing eligibility calculations based on projected enrollment compared to the classroom capacity. Qualifying districts apply for funding for specific projects to meet their future housing needs. Once a district uses their new construction eligibility to fund a project the pupils assigned to the project are considered housed and therefore are reduced from the new construction baseline eligibility, pursuant to the SFP Regulation Section 1859.51(a).

In the case of county offices of education (COE), a typical project consists of placing several classrooms on an existing school district's site for Special Day Class (SDC) pupils, or filing a joint application with a school district for a new school. In the case of the joint filing, the COE typically requests pupil grants for SDC pupils, while the district would request pupil grants for the remainder of the K-12 pupils. Recently there have been situations where school districts are assuming the responsibility of administering their own Special Education Local Plan Area (SELPA) programs. In this case, there may be a transfer of SFP funded facilities from the COE (the 'grantor') to the school district (the 'grantee'), where the projects are located, resulting in an increase in the grantee's enrollment and a decrease in the grantor's enrollment. Transfers from school district to COE will follow the same methodology.

AB 2947 amends Education Code Section 17071.75 to address the transferring of facilities from a grantor to a grantee and the impact this would have on their corresponding baseline eligibility. The bill allows for three basic things: the adjustments of school building capacity for qualifying districts/COEs, the adjustments of projected enrollment for qualifying districts/COEs, and the compensation of the State in certain instances of facilities transfer.

AUTHORITY

Education Code Section 17071.75. (Please see Attachment A.)

DISCUSSION

School building capacity adjustments:

AB 2947 will require the existing school building capacity calculation used to determine new construction eligibility to be reduced by the number of pupils that were housed in facilities to which the grantor relinquished title, including a lease interest with a duration of greater than 5 years, as the result of a transfer of a special education program between a school district and a COE or SELPA, if applicable. The reduction in school building capacity would result in a new construction eligibility increase. Accordingly, the grantee's new construction eligibility will be decreased by the capacity of the transferred classrooms. If title to the facilities is not relinquished, there is no authority to adjust either entity's school building capacity.

Projected enrollment adjustments:

When calculating projected enrollment in these cases, the enrollment calculation of SDC pupils receiving special education services is adjusted in the enrollment reporting period in which the transfer occurs and three previous school years as a result of any transfer of a special education program between a school district and a COE or a SELPA. In the situation of a facilities/enrollment transfer from a grantor to a grantee, the following changes to each *Enrollment Certification/Projection* (Form SAB 50-01) would occur: an increase in Part D and/or E for the grantee and a decrease in Part D and/or E for the grantor. The law limits the adjustment of the projected enrollment calculation of the grantor to instances in which a transfer of title for the special education program facilities has occurred.

Funds remitted to the State:

Additionally, AB 2947 requires that if a transfer of title to special education program facilities constructed with state funds occurs within 10 years after initial occupancy of the facility the grantee(s) shall remit to the state a proportionate share of any financial hardship assistance provided for the project as specified, if applicable. The OPSC will verify occupancy by the District's submittal of any of the following: attendance rosters, school board minutes indicating the first day of school, the fire marshal's approval of the building/school, and/or a school year calendar. If the grantee does not qualify for financial hardship status at the time of the facilities transfer, the State will determine the amount of money owed based on *one of the following* methods:

- Requesting the grantor's share of the initial apportionment, less any site acquisition for the project (unless the transfer includes land acquisition). For example:
 - Initial apportionment was for a 20 classroom school with a total project cost (State and District share) of \$17 million, in which \$2 million was site acquisition that is not being transferred.
 - Total project cost, less site acquisition *equals* \$15 million, so the adjusted District's share *equals* half of that amount, or \$7.5 million.
 - There was a transfer of 2 classrooms (or 10% of the original classrooms in the project) pursuant to AB 2947.
 - The payment remitted to the State by the grantee *equals* 10% of the initial apportionment less site acquisition not being transferred (10% of \$7.5 million), or \$750,000.
- Prorating the State funding initially apportioned to the project (by square footage).

There are several issues to consider regarding the transfer of projects and/or facilities beyond updating the new construction baselines for the transferring of pupils from the COE to a school district.

- In order to discourage continual shifting of eligibility between the COE and the local school districts, the OPSC suggests a District's eligibility for transferred facilities should be limited in a similar fashion as those currently in regulation for converting established eligibility from a high school attendance area to district wide and vice versa. This five-year limit will be included in SFP Regulation Section 1859.50.
- Transferring a project and/or facilities from the applicant district/COE would not reassign the certifications made with the filing of the LPP or SFP funding application to ensure compliance with all relevant laws. In essence, filing the funding application is the binding contract between the State and the applicant district/COE for the project's funding. Therefore, the grantor and grantee will be required to send a letter, signed by a valid representative from each party, to the OPSC at the time of the facilities transfer, making the necessary

certifications and indicating:

- Name of the site.
- The date the facility was initially occupied.
- The date of transfer and number of classrooms being transferred.
- Acknowledgment that the grantee may owe the State funds.
- Financial hardship status for the grantor (at the time of the initial application) and the grantee (at the time of the transfer).
- OPSC Application Number of the initial apportionment.
- Verification of the transfer via grant deed or other appropriate real estate documentation.
- An acknowledgement that the initial certifications made by the grantor on the *Application for Funding* (Form SAB 50-04), as applicable, will be assumed by the grantee.

This letter will also initiate the process of the grantee remitting any funds due to the State and completing the baseline adjustments for the transferred facilities. Essentially, the letter will certify that the grantee has the same responsibility as the grantor certified to during initial construction.

At which time the OPSC receives a letter indicating a transfer of facilities, there will be an item presented to the State Allocation Board (SAB) notifying them of the transfer, any appropriate eligibility adjustments and the amount of remittance to the State, if any. The grantee will have 60 days from the SAB approval date of the transfer to remit payment to the State pursuant to SFP Regulation Section 1859.106.1.

Regulatory Changes:

The following is a summary of proposed regulatory changes (please see Attachments B and C):

- Section 1859.50: A paragraph will be inserted to add a time limit on the transfer of special education facilities after an initial transfer.
- Section 1859.51(r): An adjustment line will be added to increase the new construction baseline eligibility for facilities lost in a special education facilities transfer. At the same time this adjustment is made, an adjustment for the decrease to the grantee's new construction baseline will be made pursuant to Section 1859.51(i) for the classroom(s) provided.
- Section 1859.106: A paragraph will be added as part of program accountability, to capture any funding due to the State as a result of a special education facility transfer.
- Form SAB 50-01: Instructions will be clarified to include the situation of a special education program transfer.

Additional non-substantive SFP Regulation changes, not related to AB 2947:

- 1859.43 (b) (1): The language delineating the calculation for the SDC enrollment projection will be corrected to correspond with the calculations made on the Form SAB 50-01 (EXCEL) as currently they are inconsistent.
- Form SAB 50-01: The instructions will clarify which SDC pupils are to be reported on that form, to correspond to which pupils are reported to the California Department of Education and housed by the district.

RECOMMENDATION

Present proposed regulations at the next available SAB meeting.

School facilities: school building capacity: transfer of special education programs

1 17071.75. After a one-time initial report of existing school
2 building capacity has been completed, the ongoing eligibility of a
3 school district for new construction funding shall be determined by
4 making all of the following calculations:
5 (a) A school district that applies to receive funding for new
6 construction shall use the following methods to determine projected
7 enrollment:
8 (1) A school district that has two or more schoolsites each with a
9 pupil population density that is greater than 115 pupils per acre in
10 kindergarten and grades 1 to 6, inclusive, or a schoolsite pupil
11 population density that is greater than 90 pupils per acre in grades
12 7 to 12, inclusive, as determined by the Superintendent using
13 enrollment data from the California Basic Educational Data System for
14 the 2004-05 school year, may submit an application for funding for
15 projects that will relieve overcrowded conditions. That school
16 district may also submit an alternative enrollment projection for the
17 fifth year beyond the fiscal year in which the application is made
18 using a methodology other than the cohort survival method as defined
19 by the board pursuant to paragraph (2), to be reviewed by the
20 Demographic Research Unit of the Department of Finance, in
21 consultation with the department and the Office of Public School
22 Construction. If the Office of Public School Construction and the
23 Demographic Research Unit of the Department of Finance jointly
24 determine that the alternative enrollment projection provides a
25 reasonable estimate of expected enrollment demand, a recommendation
26 shall be forwarded to the board to approve or disapprove the
27 application, in accordance with all of the following:
28 (A) Total funding for new construction projects using this method
29 shall be limited to five hundred million dollars (\$500,000,000), from
30 the Kindergarten-University Public Education Facilities Bond Act of
31 2004.
32 (B) The eligibility amount for proposed projects that relieve
33 overcrowding is the difference between the alternative enrollment
34 projection method for the year the application is submitted and the
35 cohort survival method, as defined by paragraph (2), for the same
36 year, adjusted by the existing pupil capacity in excess of the
37 projected enrollment according to the cohort survival projection
38 method.

39 (C) The Office of Public School Construction shall determine
40 whether each proposed project will relieve overcrowding, including,
41 but not limited to, the elimination of the use of Concept 6
42 calendars, four track year-round calendars, or busing in excess of 40
43 minutes, and recommend approval to the board. The number of unhoused
44 pupil grants requested in the application for funding from the
45 eligibility determined pursuant to this paragraph shall be limited to
46 the number of seats necessary to relieve overcrowding, including,
47 but not limited to, the elimination of the use of Concept 6
48 calendars, four track year-round calendars, or busing in excess of 40
49 minutes, less the number of unhoused pupil grants attributed to that
50 school as a source school in an approved application pursuant to
51 Section 17078.24.

52 (D) A school district shall use the same alternative enrollment
53 projection methodology for all applications submitted pursuant to
54 this paragraph and shall calculate those projections in accordance
55 with the same districtwide or high school attendance area used for
56 the enrollment projection made pursuant to paragraph (2).

57 (2) A school district shall calculate enrollment projections for
58 the fifth year beyond the fiscal year in which the application is
59 made. Projected enrollment shall be determined by utilizing the
60 cohort survival enrollment projection system, as defined and approved
61 by the board. The board may supplement the cohort survival
62 enrollment projection by the number of unhoused pupils that are
63 anticipated as a result of dwelling units proposed pursuant to
64 approved and valid tentative subdivision maps.

65 (b) (1) Add the number of pupils that may be adequately housed in
66 the existing school building capacity of the applicant school
67 district as determined pursuant to Article 2 (commencing with Section
68 17071.10) to the number of pupils for whom facilities were provided
69 from any state or local funding source after the existing school
70 building capacity was determined pursuant to Article 2 (commencing
71 with Section 17071.10). For this purpose, the total number of pupils
72 for whom facilities were provided shall be determined using the pupil
73 loading formula set forth in Section 17071.25.

74 (2) Subtract from the number of pupils calculated in paragraph (1)
75 the number of pupils that were housed in facilities to which the
76 school district or county office of education relinquished title as
77 the result of a transfer of a special education program between a
78 school district and a county office of education or special education
79 local plan area, if applicable. For this purpose, the total number
80 of pupils that were housed in the facilities to which title was
81 relinquished shall be determined using the pupil loading formula
82 adopted by the board pursuant to subparagraph (B) of paragraph (2) of
83 subdivision (a) of Section 17071.25. For purposes of this paragraph,
84 title also includes any lease interest with a duration of greater

(c) Subtract the number of pupils pursuant to subdivision (b) from the number of pupils determined pursuant to paragraph (2) of subdivision (a).

(d) The calculations required to establish eligibility under this article shall result in a distinction between the number of existing unhoused pupils and the number of projected unhoused pupils.

(e) Apply the increase or decrease resulting from the difference between the most recent report made pursuant to Section 42268, and the report used in determining the baseline capacity of the school district pursuant to subdivision (a) of Section 17071.25.

(f) For purposes of calculating projected enrollment pursuant to subdivision (a), the board may adopt regulations to ensure that the enrollment calculation of individuals with exceptional needs receiving special education services is adjusted in the enrollment reporting period in which the transfer occurs and three previous school years as a result of any transfer of a special education program between a school district and a county office of education or a special education local plan area. However, the projected enrollment calculation of a county office of education shall only be adjusted if a transfer of title for the special education program facilities has occurred. The regulations, if adopted, shall ensure that if a transfer of title to special education program facilities constructed with state funds occurs within 10 years after initial occupancy of the facility, the receiving school district or school districts shall remit to the state a proportionate share of any financial hardship assistance provided for the project pursuant to Section 17075.10, if applicable.

(g) For a school district with an enrollment of 2,500, or less, an adjustment in enrollment projections shall not result in a loss of ongoing eligibility to that school district for a period of three years from the date of the approval of eligibility by the board.

Article 5. Enrollment Projections

Section 1859.43. Projecting Special Day Class Enrollment.

The district enrollment, as reported on the Form SAB 50-01, shall be used to calculate the district's projected Special Day Class enrollment. The OPSC shall use the following methodology to determine the district's projected enrollment:

- (a) The projected enrollment of each classification of Special Day Class students served by a school district shall be computed by multiplying the reported enrollment of Special Day Class students by the five-year projection of the same grade level of students as determined by Section 1859.42. The resulting value shall be divided by the current enrollment of the same students as provided on Form SAB 50-01.
- (b) The projected enrollment of each classification of Special Day Class students served by a county office of education shall be computed as follows:
 - (1) Determine the percentage change in total Special Day Class enrollment from the previous current year to the current previous year; determine the percentage change in total Special Day Class enrollment in the second previous year to the second previous year; determine the percentage change in total Special Day Class enrollment in the third second previous year to the second third previous year. To determine the average annual increase, add the three percentage changes and divide by three.
 - (2) The current Special Day Class enrollment provided by the county office of education as reported on Form SAB 50-01, shall be adjusted by the average annual percentage change in (1) for each year until the five-year projected enrollment has been determined.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Sections 17071.75 and 17071.76, Education Code.

Article 6. New Construction Eligibility Determination

Section 1859.50. Calculations to Determine New Construction Baseline Eligibility.

The district shall calculate its eligibility determination by completion of the Form SAB 50-03. Eligibility determination for New Construction Grant(s) may be requested on either a district-wide basis, a HSAA or Super HSAA basis.

If a district requests to have its eligibility determination made on a district-wide basis, eligibility for future grants in the district must be filed on the same basis for a period of five years from the date the district received an apportionment that was justified by eligibility determined on a district-wide basis.

If a district requests to re-file its eligibility determination from district-wide to HSAA or Super HSAA after the five year time period has elapsed, the existing school building capacity in the HSAA or Super HSAA will be determined based on the classrooms available in the HSAA or Super HSAA at the time of the initial district-wide request for eligibility determination. Once the baseline eligibility has been determined for the HSAA or Super HSAA, it will be adjusted for classrooms constructed, funded or acquired in that HSAA or Super HSAA as provided by Section 1859.51.

If the district requests to have its eligibility determination made on a HSAA or Super HSAA, it must meet the criteria of Section 1859.41.

The calculated eligibility on the Form SAB 50-03, is the initial eligibility of the district, the HSAA or Super HSAA and shall be referenced as the baseline eligibility for future SFP funding. The baseline eligibility is the basis for filing Form SAB 50-04, for a new construction SFP grant.

If a School District transfers a special education program to another School District, adjustments to both district's enrollment projection and capacity shall be made pursuant to Education Code Sections 17071.75 (b)(2) and (f). There shall not be any further adjustments made as a result of any subsequent transfers of that program for a period

of five years from the date of the initial transfer. The School District shall submit a Form SAB 50-01 for enrollment changes due to the transfer upon completion of the transaction.

A district affected by a reorganization election on or after November 4, 1998 may file an application for a determination of new construction baseline eligibility after a successful reorganization election.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Sections 17071.10, 17071.25, 17071.30, 17071.33, 17071.40, 17071.75 and 17071.76, Education Code.

Section 1859.51. Adjustments to the New Construction Baseline Eligibility.

The baseline eligibility for new construction determined on the Form SAB 50-03, will be adjusted as follows:

- (a) Reduced by the number of pupils provided grants in a new construction SFP project and by the number of pupils that received a Preliminary Apportionment pursuant to Section 1859.140 or a Preliminary Charter School Apportionment pursuant to Section 1859.160.
- (b) Reduced by the number of pupils housed, based on the loading standards pursuant to Education Code Section 17071.25(a)(2)(A), in a new construction LPP project funded under the provisions of the LPP pursuant to Sections 1859.12 or 1859.13.
- (c) Reduced by the number of pupils housed in additional classrooms constructed or purchased based on the loading standards, pursuant to Education Code Section 17071.25(a)(2)(A), in a modernization SFP project.
- (d) Adjusted as a result of the audit findings made pursuant to Sections 1859.90 and 1859.105.
- (e) Increased/decreased by changes in projected enrollment in subsequent enrollment reporting years for all districts except decreases as provided in (j) below.
- (f) Adjusted as a result of errors or omissions by the district or by the OPSC.
- (g) Adjusted as a result of amendments to these Regulations that affect the eligibility.
- (h) Increased by the number of pupils eligible for grants pursuant to Section 1859.82 (a).
- (i) Reduced by the number of pupils housed, based on loading standards pursuant to Education Code Section 17071.25(a)(2)(A), in any Classroom Provided after the baseline eligibility was determined by the Board with the exception of those pupils housed or to be housed in a classroom:
 - (1) That is a trailer and transportable/towed on its own wheels and axles.
 - (2) Of less than 700 interior square feet.
 - (3) Excluded pursuant to Education Code Section 17071.30.
 - (4) Where the contract for the lease, lease-purchase, purchase, or construction of the classroom was made prior to January 1, 2000.
 - (5) That is included in a SFP project where the district has funded a portion of the project beyond its required district contribution and the pupil capacity of the classroom does not exceed 150 percent of the number of pupils receiving a new construction grant (rounded up) for the SFP project.
 - (6) That was acquired with joint-use funds specifically available for that purpose.
- (j) For Small School Districts, decreased:
 - (1) By any reduction in projected enrollment that follows a three-year period after the district's eligibility was approved by the Board.
 - (2) By any increase in the number of pupils included in the latest operational grant report made by the CDE pursuant to Education Code Section 42268 beginning three years after the district's most current eligibility was approved by the Board. The reduction in eligibility shall be determined by the number of pupils included in the latest operational grant report that exceed the number of pupils included in the operational grant report in effect when the district's most current eligibility was approved by the Board or adjusted by a subsequent operational grant report after that date.
- (k) Adjusted for any change in classroom inventory as a result of a reorganization election.
- (l) For classroom loading standards adopted by the Board for non-severely disabled individuals with exceptional needs and severely disabled individuals with exceptional needs.
- (m) As directed by the Board due to a finding of a Material Inaccuracy pursuant to Regulation Section 1859.104.1.
- (n) Increased by the number of pupils that received a Preliminary Apportionment that was rescinded pursuant to Section 1859.148 or a Preliminary Charter School Apportionment that was rescinded pursuant to Section 1859.166.

- (o) Adjusted for operational grant changes as determined/provided by the California Department of Education.
- (p) For a HSAA district with Preliminary Apportionments within the 2002 Critically Overcrowded School Facilities Account as follows:
 - (1) Decreased by the number of pupils that received a Preliminary Apportionment, distributed proportionately among HSAA's in which the pupils used to justify the conversion of the Preliminary Apportionment were enrolled but did not reside.
 - (2) In the subsequent enrollment reporting year after verification of Occupancy of a project, increased by the number of pupils equal to the reduction due to Section 1859.51(p)(1), for the project which was occupied.
 - (3) Increased by the number of pupils equal to the reduction due to Section 1859.51(p)(1), for a Preliminary Apportionment rescinded pursuant to the provisions of Section 1859.148.
- (q) Adjusted by the difference between the Alternative Enrollment Projection for the current enrollment reporting year and the projected enrollment determined pursuant to Section 1859.42 for the current enrollment reporting year, or by the eligibility remaining from this calculation that can no longer be utilized if the funds made available pursuant to Education Code Section 17071.75(a)(1)(A) have been exhausted.
- (r) Adjusted pursuant to Education Code Sections 17071.75 (b)(2) and (f) by the number of pupils housed, based on the loading standards pursuant to Education Code Section 17071.25(a)(2)(A), in any classrooms where title was relinquished.

Note: Authority cited: Section 17070.35, Education Code.

Article 11. Miscellaneous School Facility Program Requirements

Section 1859.106. Program Accountability Expenditure Audit.

The projects will be audited to assure that the expenditures incurred by the district were made in accordance with the provisions of Education Code Section 17072.35 for new construction projects, Section 1859.120 for Joint-Use Projects, Section 1859.140 for Critically Overcrowded School projects, Section 1859.160 for Charter School projects, and Education Code Section 17074.25 and Section 1859.79.2 for modernization projects. The audit will also assure that the district complied with all site acquisition guidelines as provided in Education Code Sections 17072.13 and 17072.14 and Sections 1859.74, 1859.74.1, 1859.74.2, 1859.74.3, 1859.74.4, 1859.75 and 1859.75.1.

An adjustment in the SFP grant will be made for the following:

- (a) The difference in the value of the site, relocation costs, DTSC fees, and hazardous waste/materials removal costs that were used to determine the New Construction Additional Grant and the actual amount paid by the district for the site, relocation costs, DTSC fees, and hazardous waste/materials removal costs. For applications received on or after January 1, 2004, the adjustment may be made regardless of whether the hazardous waste/materials removal costs were requested on the application for funding.
- (b) For 50 percent of any insurance proceeds collectable by the district for displaced facilities and 50 percent of the net proceeds available from the disposition of displaced facilities pursuant to Section 1859.82(a) or (b).

When the OPSC receives the final expenditure report from the district on Form SAB 50-06, an audit of the expenditures by the OPSC shall commence within two years of the report. If the district is not notified by the OPSC within the two-year period that an audit will be made, there will be no audit of the project by the OPSC and the expenditures reported by the district shall be deemed appropriate. If the district has been notified that an audit of the expenditures will be made by the OPSC, the OPSC shall complete the audit within six months of the notification, unless additional information requested from the district has not been received.

Districts shall be required to maintain all appropriate records that support all district certifications and expenditures for all costs associated with SFP, Charter School, and Joint-Use projects for a period of not less than four years from the date the notice of completion is filed for the project in order to allow other agencies, including, without limitation, the Bureau of State Audits and the State Controller to perform their audit responsibilities.

The district is responsible to substantiate expenditures from the Joint-Use Partner(s) financial contribution pursuant to Section 1859.127 and from other local sources.

Should the OPSC conduct an audit of the district certifications or the expenditures for the project and make a finding that some or all of the expenditures were not made in accordance with the provisions of Education Code Section 17072.35 for new construction projects, Section 1859.120 for Joint-Use Projects, Section 1859.140 for Critically Overcrowded School projects, Section 1859.160 for Charter School projects, Education Code Section 17074.25 and Section 1859.79.2 for modernization projects, and Education Code Sections 17072.13 and 17072.14 for projects with additional costs imposed by the DTSC, the OPSC shall recommend to the Board that the apportionment be adjusted based on the audit findings.

Should the CDE make a finding that a project did not meet the standards that were adopted by the CDE pursuant to Education Code Section 17251 (b) and (c) when the district had self-certified that the project met those standards pursuant to Education Code Section 17070.50 (b), the Board may request that the CDE make a recommendation that the apportionment for the project be adjusted based on the CDE finding. Any adjustment in the apportionment shall be based on the percentage of space in the project that the CDE determined did not meet those standards.

If a School District transfers a special education program to another School District pursuant to Education Code Sections 17071.75 (b) (2) and (f), the receiving district shall remit payment within 60 days or pursuant to Section 1859.106.1 in the amount determined by prorating the initial Apportionment, including site acquisition costs apportioned for any land transferred, by the percentage of classrooms being transferred divided by the amount of classrooms requested on the initial Application, if all of the following conditions are met:

- (a) The transferred facilities were constructed with State funds under Chapter 12.5.
- (b) Occupancy of the transferred facilities took place within ten years prior to the transfer.
- (c) The School District that initially acquired or constructed the transferred facilities had approved Financial Hardship status at the time of Apportionment of the project.
- (d) The School District receiving the facility did not have approved Financial Hardship status at the time of the transfer.

SCHOOL FACILITY PROGRAM****GENERAL INFORMATION**

To determine a district's initial eligibility for new construction funding under the School Facility Program, the district must provide enrollment information for the current and previous three years on this form. After the initial submittal, this form need only be resubmitted when the district requests additional new construction funding in a new enrollment year, **or** as a result of a reorganization election that affects either the district's enrollment or existing school building capacity, or as a result of a special education program transfer.

The following documentation must be submitted with this form (as appropriate):

- Specific enrollment data for district's with current enrollment that is less than 300 if the district is requesting an enrollment projection based on five-year average enrollment data (refer to Part A).
- A copy of the study supporting student yield factors if the district is requesting an augmentation of its enrollment projection due to pupils residing in new dwelling units and it is not using the State yield factors (refer to Part F).
- A copy of the governing board approved attendance map and enrollment distribution worksheet for every HSAA, if the district is currently, or anticipates

for the future, reporting residency data (refer to Part A). By signing this form, the district certifies that the pupil enrollment and residency data used to support the submitted map and worksheet is available at the district for Office of Public School Construction (OPSC) verification.

A high school district, unified school district, or county superintendent of schools may file on a high school attendance area (HSAA) basis or Super HSAs as provided under Education Code Section 17071.76 and Section 1859.41. In that case, the enrollment used on this form is the current and three previous years enrollment in the HSAA or Super HSAA.

To determine the new construction eligibility for a district filing on a HSAA basis, and seeking COS project justification pursuant to SFP Regulation Section 1859.147(e)(2), one Form SAB 50-01 based on enrollment as reported to CDE and one based on the residence of the pupils must be filed for each HSAA which includes a Preliminary Apportionment for a 2002 COS project.

This form is not used for modernization funding applications.

SPECIFIC INSTRUCTIONS**Part A. Enrollment/Residency Data**

Check the appropriate box to indicate whether the district is reporting enrollment data or residency data.

Enrollment Data (To be completed by school districts or the county superintendent of schools.)

The information needed to complete this form is based on the latest California Basic Education Data Systems (CBEDS) that is available approximately October 15th of each year. Applications filed on or after November 1st must include the current school year enrollment. Report the current year and the three prior years K-12 enrollment. High school districts report the unduplicated enrollment data for grades served by the district and all feeder elementary school grades for the current year and the previous three years.

As an option, school districts with less than 300 current enrollment may report the previous five year average for any grade level for any year when the enrollment for that grade level has decreased by more than 50 percent from the previous year. If this option is used, the district must identify each grade level where this option is used on Form SAB 50-01 and attach the appropriate enrollment documentation to support this request.

County superintendents report the enrollment for community school students as reported in April prior to the latest CBEDS report.

The enrollment data must include all off-track and on-track students attending multi-track year round schools, students living outside the district's boundaries but attending schools in the district, students receiving Classroom-Based Instruction in Charter Schools located within the district boundaries and are enrolled in the same grade levels or type served by the district regardless if the district chartered the school, students attending magnet schools, community school students, and students attending independent study.

Do not include students living in the district's boundaries but attending other districts, students attending regional occupational programs, students attending

preschool programs, other students not generally considered K-12 students including adult education students, students receiving Classroom-Based Instruction in Charter Schools located within the district boundaries but are enrolled in grade levels or type not served by the district, students living inside district boundaries but are receiving Classroom-Based Instruction in Charter Schools located outside the district boundaries, students receiving Nonclassroom-Based Instruction, juvenile court/court school students, special day class pupils, or continuation high school pupils.

Residency Data (To be completed by a COS HSAA district, filing pursuant to Section 1859.147(e)(2).)

The information used to complete this form is based on the latest enrollment as reported on the CBEDS that is available October of each year, and pupil residency within the HSAA boundaries. Report the current year and the three prior years' K-12 pupils that are both enrolled and reside within the HSAA boundaries. For HSAA district filing pursuant to Section 1859.147(e)(2)(A) only the current years' K-12 pupils must be reported.

Do not include students living outside the district's boundaries but attending school in the district, students living in the district's boundaries but attending other districts, students attending regional occupational programs, students attending preschool programs, other students not generally considered K-12 students including adult education, students receiving Classroom-Based Instruction in Charter Schools located within the district boundaries but are enrolled in grade levels or type not served by the district, students living inside district boundaries but are receiving Classroom-Based Instruction in Charter Schools located outside the district boundaries, students receiving Nonclassroom-Based Instruction, juvenile court/court school students, special day class pupils or continuation high school pupils.

Part B. Pupils Attending Schools Chartered by Another District

Of the data reported in Part A of this form, indicate the aggregate pupil enrollment attending schools chartered by another district which are located within your district boundaries for the current year and the three prior years. If the district is

**ENROLLMENT CERTIFICATION/PROJECTION
SCHOOL FACILITY PROGRAM**

SAB 50-01 (REV 02/07/03/05)

reporting pupils attending schools chartered by another district for the current year, then the district must submit a separate letter with the following information:

- The total Charter School enrollment listed by each of the K–12 grade levels reported for the current year.
- A list of the other school district(s) that chartered school(s) within your boundaries. Include the Charter School name(s) and total school enrollment.

For the previous years, report the total enrollment for pupils attending schools chartered by another district, if known. If the information is not available, enter N/A. In this case, the OPSC will adjust the previous years' enrollment data based on a prorated basis of the rate of growth or decline of the previous years' enrollment.

Enter 0 if there are no pupils attending schools chartered by another district within your district boundaries for the current or previous years.

Part C. Continuation High School (To be completed by school districts only.)

Report the continuation high school enrollment for the current year and the three previous years. For purposes of projecting the enrollment, these pupils will be added to the enrollment data in Part A.

Part D. Special Day Class Pupils (To be completed by school districts or the county superintendent of schools.)

Report the pupils [three to twenty-two years old](#) enrolled or residing, as appropriate, within the district boundary, attending the special day classes as shown and reported [within the California Special Education Management Information System](#) to the California Department of Education in December prior to the latest CBEDS report. Use pupil descriptions as provided in Section 1859.2 for Non-Severely Disabled Individual with Exceptional Needs and Severely Disabled Individual with Exceptional Needs.

Part E. Special Day Class Enrollment (To be completed by county superintendent of schools only.)

Report the total of special day class pupils in all categories for the three previous years, [adjusted by the total pupils lost or gained due to a transfer of a Special Education Local Plan Area \(SELPA\) for each year.](#)

[Upon transfer of any SELPA facilities, the school districts are required to submit a letter to the OPSC, signed by each school district involved, including the following:](#)

- [grant deed or other legal documentation indicating the facilities have been transferred,](#)
- [name of school,](#)
- [number of classrooms being transferred,](#)
- [the occupancy date of the facility,](#)
- [date of transfer,](#)
- [acknowledgement that the grantee may owe the States funds,](#)
- [financial hardship status of each school district at time of initial application and at time of transfer,](#)
- [OPSC application number\(s\) of Application for Funding \(Form SAB 50-04\), and](#)
- [acknowledgment that the certifications made, as applicable, by the grantor on the Application for Funding \(Form SAB 50-04\) will be assumed by the grantee.](#)

Part F. New Dwelling Units (To be completed by school districts only.)

The district may augment the enrollment projection based on the number of pupils that are anticipated as a result of proposed dwelling units included in approved and valid tentative or final subdivision maps.

The district must provide all of the following:

- The approval dates of the maps by the local planning commission or approval authority; and,
- The number of dwelling units to be built within each subdivision excluding all dwelling units that have either 1) been occupied; or, 2) had construction permits pulled that are twelve months or older from the date the permit was pulled. (Note: A district must select only one option—the Date of Occupancy or permits pulled, plus twelve months—as the point in time to stop reporting dwelling units for all tracts being submitted. A district may select the alternate option the following submittal year if desired.); and,
- One of the following:
 1. An approved and valid tentative or final subdivision map with the local planning commission or approval authority stamp located on the map, or
 2. An approved and valid tentative or final subdivision map with supporting documentation, or
 3. A spreadsheet or the OPSC dwelling unit worksheet listing all of the subdivisions reported on the Form SAB 50-01 with supporting documentation. If the district wishes to utilize this option, please note that when the district representative signs the Form SAB 50-01, he/she is certifying that the tract maps are on file at the district office and available for OPSC review if requested.

Supporting documentation is defined as one of the following:

- Local planning commission or approval authority meeting minutes detailing the approval of the map. If the approval was given an extension, please provide the most current meeting minutes indicating the approval of the extension request. Dwelling units contained in expired maps may not be reported on the Form SAB 50-01, or
- A letter from the local planning commission or approval authority indicating that the tract map is approved and valid as of the signature date of the Form SAB 50-01, or
- Any other reasonable documentation from the local planning commission or approval authority that indicates the tract map is approved and currently valid.

Report the determined number of dwelling units in Part F.

Part G. Yield Factor (To be completed by school districts only.)

Report the district's student yield factors as defined in Section 1859.2, if different than the statewide average student yield factor. The statewide average student yield factors are as follows:

- Elementary School District..... 0.5 students per dwelling unit
- High School District..... 0.2 students per dwelling unit
- Unified School District..... 0.7 students per dwelling unit

Should the district wish to use its own student yield factors, a copy of the district's study that justifies the student yield factors must be submitted with this form.

Part H. Five Year Projected Enrollment/Residency (Used for the School Facility Program. To be completed by the OPSC.)**Part I. One Year Projected Enrollment (Used for the State Relocatable Program. To be completed by the OPSC. Do not manually complete Parts H or I.)**

Complete this form manually, sign, date, and submit to the OPSC for computations. A completed copy of this form with the enrollment projections will be returned to the district.

The methodology for calculating the district's projected enrollment is outlined in Sections 1859.42 and 1859.43.

STATE ALLOCATION BOARD
IMPLEMENTATION COMMITTEE MEETING
February 2, 2007

IMPLEMENTATION OF THE
OVERCROWDING RELIEF GRANT

PURPOSE

To discuss the implementation and development of the Overcrowding Relief Grant (ORG).

BACKGROUND

Assembly Bill (AB) 127 (Chapter 35, Statutes of 2006 - Nunez and Perata), establishes a new grant that enables districts to reduce the number of portable* classrooms on overcrowded school sites and replace them with permanent classrooms. AB 127 provides \$1 billion for eligible schools. The grant program is contained in Education Code (EC) Sections 17079 through 17079.30 (see Attachment F for full text).

DISCUSSION

Following is a summary of the proposed ORG regulations and revisions to the existing School Facility Program Regulations that have been modified since the last Implementation Committee meeting (see the draft regulations on Attachment B):

- 1859.81 *Financial Hardship*
 - Districts must submit a Board approved *Overcrowding Relief Grant Pupil Eligibility Determination* (Form SAB 50-11) in conjunction with the request for financial hardship status.
- 1859.181 *Eligible Schools*
 - New construction projects, including Critically Overcrowded Schools projects, will be taken into account when determining the site density unless the district can demonstrate that those projects are not impacting density at the eligible school site.
- 1859.182 *Determining Overcrowding Relief Pupil Eligibility*
 - The site specific pupil eligibility will be determined on the California Department of Education's (CDE) *Overcrowding Relief Grant Pupil Adjustment* form.
- 1859.184 *Overcrowding Relief Grant Application Submittals and Apportionments*
 - Districts may submit applications for funding when construction contracts were signed after SAB approval of the regulations.

*The definition of a portable pursuant to EC Section 17070.15 (j) is a classroom building of one or more stories that is designed and constructed to be relocatable and transportable over public streets, and with respect to a single story portable classroom, is designed and constructed for relocation without the separation of the roof or the floor from the building and when measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

The Form SAB 50-11, *Application for Funding* (Form SAB 50-04), and *Expenditure Report* (Form SAB 50-06) have been slightly modified since the last Implementation Committee meeting (see Attachments C, D, and E). The following is a summary of the major modifications:

- Districts must submit the Form SAB 50-11 and have the site deemed eligible by the CDE prior to the submittal of the Form SAB 50-04. This has been reflected in the form instructions on the Form SAB 50-04.
- Section 2 g has been added to the Form SAB 50-04 to provide a breakdown of the total pupil grants being requested and the number of portables being replaced at the eligible site(s).

RECOMMENDATION

Present the attached regulations, *Overcrowding Relief Grant Pupil Adjustment Form*, revised *Application for Funding* (Form SAB 50-04), revised *Expenditure Report* (Form SAB 50-06), and *Overcrowding Relief Grant Pupil Eligibility Determination* (Form SAB 50-11) to the next available State Allocation Board meeting for approval.

Section 1859.61. Adjustments to the Modernization Baseline Eligibility.

The baseline eligibility for modernization as provided in Section 1859.60 for a specific site will be adjusted as follows:

- (a) Reduced by the number of pupils provided grants in a modernization SFP project at the specific site.
- (b) Reduced by the number of pupils housed, based on the loading standards pursuant to Education Code Section 17071.25(a)(2), in a modernization LPP project funded under the LPP pursuant to Sections 1859.14 and 1859.15.
- (c) Increased by changes in projected enrollment in subsequent enrollment reporting years.
- (d) Increased for additional facilities not previously modernized with State funds, that become 25 years old, if permanent, or 20 years old, if portable or as a result of audit findings made pursuant to Sections 1859.90 and 1859.105.
- (e) Adjusted as a result of errors or omissions by the district or by the OPSC.
- (f) Adjusted as a result of amendments to these Subgroup 5.5 Regulations that affect the eligibility.
- (g) For classroom loading standards adopted by the Board for non-severely disabled individuals with exceptional needs and severely disabled individuals with exceptional needs.
- (h) As directed by the Board due to a finding of a Material Inaccuracy pursuant to Regulation Section 1859.104.1.

Section 1859.81. Financial Hardship.

Except for Joint-Use Projects, a district is eligible for financial hardship to fund all or a portion of its matching share requirement after demonstrating both of the following:

- (a) The district is financially unable to provide all necessary matching funds for an eligible project. To determine this, an analysis shall be made of the district's financial records by the OPSC including data and records maintained by the CDE and the County Office of Education. The analysis shall consist of a review of the district's latest Independent Audit regarding funds available from all capital facility accounts, including, but not limited to, developer fees, funds generated from capital facility certificates of participation, federal grants, redevelopment funds, sale proceeds from surplus property, the appraised value of facilities approved for replacement pursuant to Section 1859.82, bond funds either encumbered, unencumbered or authorized but unsold, and savings from other SFP projects. All funds thus identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

ATTACHMENT B

After the initial request for financial hardship status is granted, no further encumbrances will be approved by the OPSC and all prospective revenue made available to the district's capital facility accounts shall be deemed available as matching contribution on the subsequent financial hardship review, with the exception of:

- (1) Approved interim housing expenditures.
- (2) Funding to pay for previously recognized multi-year encumbrances approved at the initial financial hardship approval.
- (3) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Federal Renovation Program when the amount expended out of that fund does not exceed the maximum Federal Renovation Grant amount.
- (4) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the School Facilities Needs Assessment Grant Program or Emergency Repair Program when the amount expended out of that fund does not exceed the maximum grant amount apportioned.
- (5) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Overcrowding Relief Grant when the amount expended out of that fund does not exceed the district's share of the grant amount apportioned, and the School District has submitted a Board-approved Form SAB 50-11 in conjunction with the request for financial hardship status.
- ~~(5)~~ (6) All other capital facility funding for a period of three years when no subsequent financial hardship request is made during this period. The three-year period begins with the date of the most recent financial hardship new construction or modernization adjusted grant funding apportionment.

The financial hardship analysis is subject to approval by the Board.

- (b) From the funds deemed available as a matching contribution, the district may retain \$19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of classrooms needed for interim housing for the currently unhoused pupils shall be the sum of the positive numbers determined in (b)(7) as follows:
 - (1) Determine the current enrollment of the district by grade level as shown on the latest Form SAB 50-01.
 - (2) Determine the New Construction Grants apportioned by grade level for all SFP projects and LPP funded under the provisions of Sections 1859.12 or 1859.13 where the district has submitted Form SAB 50-06 indicating that the project is 100 percent complete.
 - (1) Subtract (b)(2) from (b)(1).
 - (2) Determine the number of classrooms by grade level reported in Part 1, Line 8 on Form SAB 50-02.
 - (3) Multiply the classrooms determined in (b)(4) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe.
 - (4) Subtract the product determined in (b)(5) from the difference determined in (b)(3) by grade level.
 - (5) Divide the difference by grade level determined in (b)(6) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain \$19,776 per portable toilet unit in each reporting period for the cost to provide necessary interim toilet facilities for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of toilet facilities needed for interim housing shall be the sum of the positive numbers determined in (b)(7) divided by eight rounded up to the nearest whole number.

If the district's available funds, as determined by the OPSC analysis less costs for interim housing, is less than its matching share, the district will be deemed to have met the requirements of this Subsection.

- (c) The district has made all reasonable efforts to fund its matching share of the project by demonstrating it is levying the developer fee justified under law or an alternative revenue source equal to or greater than the developer fee otherwise justified under law at the time of request for hardship and the district meets at least one of the following:
 - (1) The current outstanding bonded indebtedness of the district issued for the purpose of constructing school facilities in accordance with Education Code Section 17072.35 or 17074.25 as appropriate, at the time of request for financial hardship status, is at least 60 percent of the district's total bonding capacity. Outstanding bonded indebtedness

ATTACHMENT B

includes that part of general obligation bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and certificates of participation which the district is paying a debt service that was issued for capital outlay school facility purposes.

- (2) The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).
- (3) It is a County Superintendent of Schools.
- (4) The district's total bonding capacity at the time of the request for financial hardship status is \$5 million or less.
- (5) Other evidence of reasonable effort as approved by the SAB.

If the district's request for financial hardship status is denied by the Board, the district may be deemed eligible for rental payments of \$2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation that it is unable to afford the full rental amount and any other information satisfactory to the Board that the rental reduction is necessary. The number of classrooms eligible for the \$2,000 rental payments shall be the sum of the numbers determined in (c)(5)(B) as follows:

- (A) Determine the number of pupils by grade level that the district requested a New Construction Grant on the Form SAB 50-04 that were denied financial hardship status.
- (B) Divide the number by grade level determined in (c)(5)(A) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

If the district meets the financial hardship requirements in this Section, the amount of financial hardship is equal to the district's matching share less funds deemed available in (a).

Once a district has been notified by the OPSC that it meets the requirements of financial hardship in this Section, the district may file Form SAB 50-04 under the provisions of financial hardship anytime within a period of 180 calendar days from the date of the OPSC notification.

If the district does not submit Form SAB 50-04 under the provisions of financial hardship within 180 calendar days of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status under the provisions of this Section by submittal of a new request for financial hardship status.

If the district submits Form SAB 50-04 within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds pursuant to (a) will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Financial hardship approval status by the OPSC for a separate design and/or site apportionment does not apply to any subsequent funding for the project(s).

Section 1859.104. Program Reporting Requirements.

A district receiving funds in accordance with the Act shall submit the following:

ATTACHMENT B

- (a) An expenditure report from the district on the Form SAB 50-06. The program reporting requirements are as follows:
- (1) The first expenditure report shall be due one year from the date that any funds were released to the district for the project pursuant to Section 1859.90, or upon completion of the project, whichever occurs first. A project shall be deemed complete when either of the following occur:
 - (A) When the notice of completion for the project has been filed, all outstanding invoices, claims, change orders have been satisfied and the facility is currently in use by the district.
 - (B) Three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.
 - (2) The second and subsequent expenditure reports, if necessary, shall be due annually beginning one year from the first report, or upon completion of the project, whichever occurs first. The final expenditure report must be made no later than three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.
- (b) With the exception of projects that qualify for an apportionment pursuant to Section 1859.75.1, a progress report, in the form of a narrative from the district, shall be due 18 months from the date any funds were released to the district for the project pursuant to Section 1859.90. The progress report shall include information regarding the progress the district has made towards substantial completion of the project. If the notice of completion has been filed within 18 months of the release of funds pursuant to Section 1859.90, or the expenditure reports required in (a)(1) or (2) indicate that substantial progress (as defined in Section 1859.105) on the project has occurred, no progress report is required.

Article 15. Overcrowding Relief Grant

Section 1859.180. General.

A School District seeking an Apportionment pursuant to the provisions of Education Code Section 17079 through 17079.30 for new construction shall complete and file a Form SAB 50-04.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17079.20, Education Code.

Section 1859.181. Eligible Schools.

An eligible school is a school for which the school site pupil population density is equal to or greater than 175% of the school site pupil population density recommended by the CDE, based on the CBEDS Report as of January 1, 2006, adjusted by the CDE by the following factors:

- (a) Reduced to take into account the additional pupil capacity created by multistory construction.
- (b) Reduced to take into account approved new construction projects, including projects approved pursuant to the Critically Overcrowded School Facilities Program, Education Code Sections 17078.10 through 17078.30, ~~unless the School District can demonstrate that those projects, in whole or part, are not impacting density at the eligible school site.~~

In order to determine the school site pupil population density, the School District shall complete and submit to the CDE the Overcrowding Relief Grant Pupil Adjustment form. The School District shall also complete and submit to the OPSC the Form SAB 50-11.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17079, Education Code.

Section 1859.182. Determining Overcrowding Relief Pupil Eligibility.

- (a) For purposes of the Overcrowding Relief Grant, an eligible pupil is a pupil that is housed in a portable classroom at the eligible school site, less the prorated number of portables that were funded by the Class Size Reduction Program pursuant to Chapter 6.10 of the Education Code. The Class Size Reduction prorate shall be calculated as follows:
 - (1) Determine the total number of portables funded pursuant to Chapter 6.10 of the Education Code.
 - (2) Divide the total number of elementary schools currently in the School District by the amount determined above. The resulting number of classrooms must be reduced from each eligible elementary school site.
- (b) The determination of the site specific Overcrowding Relief Pupil Eligibility shall be ~~conducted~~ determined by the CDE on the Overcrowding Relief Pupil Adjustment and will be conducted on a one-time basis for each eligible school, but may be adjusted as follows:
 - (1) Reduced by the number of eligible pupils that receive an Overcrowding Relief Grant.
 - (2) Adjusted as a result of errors or omissions by the School District or by the OPSC.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17079.10, Education Code.

Section 1859.183. Funding.

The Board shall provide a New Construction Adjusted Grant to each eligible pupil requested in the project. The pupil grants may be requested by the School District at any grade level, regardless of the grade level of the eligible school.

The maximum number of Overcrowding Relief Grants for each eligible school site shall be subject to the following limitations:

ATTACHMENT B

- (1) The number of Overcrowding Relief Grants may not exceed the number of pupils whose removal from the pupil density calculation would reduce the density of the eligible school site to 150 percent of the school site pupil population density recommended by the CDE, based on the CBEDS in effect as of January 1, 2006.
- (2) The number of Overcrowding Relief Grants may not exceed the capacity of those portables on the eligible school site that are being replaced in the project.

In no event shall a School District receive in total more Overcrowding Relief Grants than the number of pupils housed in portable classrooms that were included in the School District's initial new construction eligibility determination pursuant to Education Code 17071.75 as identified in part on Line 1 of Part III of the Form SAB 50-02 and as calculated on the Form SAB 50-11.

The Overcrowding Relief Grant must be used to replace an equivalent number of portable classrooms with permanent classrooms. Those portables that are replaced with Overcrowding Relief Grants must be removed from the eligible school site and from K – 12 grade classroom use, pursuant to Education Code Section 17079.30, within six months of the date of Occupancy of the replaced permanent classrooms. Overcrowding Relief Grants may not be expended upon the construction, acquisition or transportation of portable classrooms. Those School Districts receiving an Overcrowding Relief Grant must comply with all new construction provisions of the SFP, including but not limited to Sections 1859.100, 1859.102, 1859.104, 1859.105, and 1859.106.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17079.10, 17079.20 and 17079.30, Education Code.

Section 1859.184. Overcrowding Relief Grant Application Submittals and Apportionments

- (a) For the funding made available for this purpose for the first funding cycle, the School District shall submit an approved application by January 31, 2008.
- (b) The Board shall accept approved applications on a semi-annual basis thereafter.

The Board shall apportion Overcrowding Relief Grants based upon the highest density of the eligible schools that have submitted an approved application. Any School District that does not receive an Overcrowding Relief Grant due to low school density and insufficient funds may request that its application remain with the OPSC for consideration in the following semi-annual funding cycle.

The Board shall apportion the Overcrowding Relief Grants as follows:

- (a) For the first funding cycle, up to a maximum of \$500 million for all approved applications that are received by January 31, 2008.
- (b) For the second funding cycle, up to a maximum of \$300 million for all approved applications that are received by July 31, 2008, plus any remaining funds not apportioned during the previous funding cycle.
- (c) Approved applications that are received by January 30, 2009 shall be apportioned any remaining funds not allocated at the previous funding cycles, plus an additional \$200 million. Should funds remain following the third funding cycle, those funds shall be pooled for a subsequent funding cycle.

The approved applications for Overcrowding Relief Grants must provide a narrative indicating how the project will relieve overcrowding at the eligible school.

A School District may submit an approved application to request an Overcrowding Relief Grant for a project that has been occupied if the construction contract for the project was signed after Board approval of these regulations. The School District must have obtained all project approvals required for a new construction funding application prior to the construction contract date.

GENERAL INFORMATION

As part of the district's request for new construction funding for the Overcrowding Relief Grant (ORG) under the School Facility Program (SFP), a determination of the district's District-wide/High School Attendance Area (HSAA)/Super HSAA pupil eligibility must be made. This shall be a one time report that is determined based upon the information reported on the district's Existing School Building Capacity (Form SAB 50-02) at the time the district established its SFP new construction eligibility. If the district has not established its new construction eligibility, it will be required to do so for purposes of determining district-wide eligibility for the ORG program.

In order to determine site specific pupil eligibility the district must complete the California Department of Education's (CDE) Overcrowding Relief Grant Pupil Adjustment form.

SPECIFIC INSTRUCTIONS

If the district is submitting this form to correct an error or omission that was previously reported, please check the appropriate box.

Section I – Classroom Inventory

Complete the school district information as requested. If the high school district, unified school district, or county superintendent of schools established the SFP new construction eligibility on a HSAA or Super HSAA basis, it must submit one Form SAB 50-11 for each HSAA or Super HSAA.

Section II – Determination of District-Wide ORG Pupil Eligibility

Provide the requested information to complete the calculation of the district/HSAA eligibility.

Section III – Class Size Reduction Program Information and Calculation of Prorate

Provide the number of K–6 portables that were funded under the Class Size Reduction Program pursuant to Chapter 6.10 of the Education Code. Calculate the prorate as requested. This prorate will need to be reduced from each eligible elementary school site on the CDE Overcrowding Relief Grant Pupil Adjustment form.

GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 02/07/06/06)

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. If the eligibility for this project was established as a result of the need for new or replacement facilities pursuant to Section 1859.82 (a) and (b), or rehabilitation pursuant to Section 1859.83 (e), check the appropriate box.

If this request is for an addition to an existing site and advance funding for the evaluation and RA costs, check the appropriate box and refer to Section 1859.74.4.

[If this request is for an Overcrowding Relief Grant, check the New Construction \(Overcrowding Relief Grant\) box.](#)

If this request is to convert a Preliminary Apportionment or a Preliminary Charter School Apportionment to a Final Apportionment, check the New Construction (Final Apportionment or Final Charter School Apportionment) box.

If the district is requesting a separate site and/or design apportionment, complete boxes 2a, 3, 4, the site acquisition data in box 5 (d and e), and boxes 12, 13, 14, 15 and 21 only.

a. Select the type of project that best represents this application request and enter the total number of pupils assigned to the project for each grade group. Include pupils to be housed in a new or replacement school authorized by Section 1859.82 (a). The amount entered cannot exceed the district's baseline eligibility determined on Form SAB 50-03 and will be the basis for the amount of the new construction or modernization grants provided for the project.

If this request is for a Final Apportionment, the pupils assigned to the project must be at least 75 percent, but not more than 100 percent, of the pupils that received the Preliminary Apportionment. Refer to Section 1859.147.

[For ORG projects, the amount entered cannot exceed the Overcrowding Relief Pupil Eligibility \(pursuant to Section 1859.182 and 1859.183\) as reflected in the total number of eligible pupils determined by the Form SAB 50-11 or the CDE Overcrowding Relief Grant Pupil Adjustment form.](#)

- e. Check the applicable box if the district is requesting additional pupil grants assigned to the project that exceed the capacity of the project or if the pupils assigned represent eligibility determined at another grade level and check the appropriate box to indicate under which regulation the district is applying. The pupil capacity of the project may be determined by multiplying the classrooms reported in box 3 by 25 for K–6; 27 for 7–8, 9–12 grades; 13 for non-severe and 9 for severe.
- f. If the request is for replacement facilities pursuant to Section 1859.82 (a) or (b) on the same site, check the facility hardship box.

493

494

495

496

497

(1) The number of grants apportioned on behalf of an eligible school shall not exceed the number of pupils whose removal from the pupil density calculation would reduce the density of the eligible schoolsite to 150 percent of the schoolsite pupil population density recommended by the Superintendent as of January 1, 2006.

502

503

504

505

506

512

513

514

515

516

526 (e) In the event the funding available to the board for purposes of this
527 article is less than the amount necessary to fund all eligible applications,

532 (1) Within six months after the date of initial occupancy of the

Section 1859.81. Financial Hardship.

Except for Joint-Use Projects, a district is eligible for financial hardship to fund all or a portion of its matching share requirement after demonstrating both of the following:

- (a) The district is financially unable to provide all necessary matching funds for an eligible project. To determine this, an analysis shall be made of the district's financial records by the OPSC including data and records maintained by the CDE and the County Office of Education. The analysis shall consist of a review of the district's latest Independent Audit regarding funds available from all capital facility accounts, including, but not limited to, developer fees, funds generated from capital facility certificates of participation, federal grants, redevelopment funds, sale proceeds from surplus property, the appraised value of facilities approved for replacement pursuant to Section 1859.82, bond funds either encumbered, unencumbered or authorized but unsold, and savings from other SFP projects. All funds thus identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

After the initial request for financial hardship status is granted, no further encumbrances will be approved by the OPSC and all prospective revenue made available to the district's capital facility accounts shall be deemed available as matching contribution on the subsequent financial hardship review, with the exception of:

- (1) Approved interim housing expenditures.
- (2) Funding to pay for previously recognized multi-year encumbrances approved at the initial financial hardship approval.
- (3) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Federal Renovation Program when the amount expended out of that fund does not exceed the maximum Federal Renovation Grant amount.
- (4) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the School Facilities Needs Assessment Grant Program or Emergency Repair Program when the amount expended out of that fund does not exceed the maximum grant amount apportioned.

(5) Funding that is transferred into a Special Reserve Fund and used for the express purpose of the Overcrowding Relief Grant when the amount expended out of that fund does not exceed the amount of the site acquisition and design costs of the project, including any interest earned in the Special Reserve Fund, and the district's share of the grant amount apportioned, and the School District has submitted an Board-approved Form SAB 50-11 in conjunction with the request for financial hardship status.

~~(5)~~ (6) All other capital facility funding for a period of three years when no subsequent financial hardship request is made during this period, with the exception of the funding identified in (5). The three-year period begins with the date of the most recent financial hardship new construction or modernization adjusted grant funding apportionment.

When Overcrowding Relief Grant funding is set aside pursuant to (5) and the School District has not submitted an application for that program within three years from the date of deposit into the Special Reserve Fund, or the School District has not met the requirements in Sections 1859.90 or 1859.105, remaining funds plus interest accrued at the Pooled Money Investment Board rate at that time period shall be deemed available as matching contribution on a subsequent financial hardship project or be captured through an audit adjustment pursuant to Section 1859.106.

The financial hardship analysis is subject to approval by the Board.

(b) From the funds deemed available as a matching contribution, the district may retain \$19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of classrooms needed for interim housing for the currently unhoused pupils shall be the sum of the positive numbers determined in (b)(7) as follows:

- (1) Determine the current enrollment of the district by grade level as shown on the latest Form SAB 50-01.
- (2) Determine the New Construction Grants apportioned by grade level for all SFP projects and LPP funded under the provisions of Sections 1859.12 or 1859.13 where the district has submitted Form SAB 50-06 indicating that the project is 100 percent complete.
 - (1) Subtract (b)(2) from (b)(1).
 - (2) Determine the number of classrooms by grade level reported in Part 1, Line 8 on Form SAB 50-02.
 - (3) Multiply the classrooms determined in (b)(4) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe.
 - (4) Subtract the product determined in (b)(5) from the difference determined in (b)(3) by grade level.
 - (5) Divide the difference by grade level determined in (b)(6) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain \$19,776 per portable toilet unit in each reporting period for the cost to provide necessary interim toilet facilities for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of toilet facilities needed for interim housing shall be the sum of the positive numbers determined in (b)(7) divided by eight rounded up to the nearest whole number.

If the district's available funds, as determined by the OPSC analysis less costs for interim housing, is less than its matching share, the district will be deemed to have met the requirements of this Subsection.

(c) The district has made all reasonable efforts to fund its matching share of the project by demonstrating it is levying the developer fee justified under law or an alternative revenue source equal to or greater than the developer fee otherwise justified under law at the time of request for hardship and the district meets at least one of the following:

- (1) The current outstanding bonded indebtedness of the district issued for the purpose of constructing school facilities in accordance with Education Code Section 17072.35 or 17074.25 as appropriate, at the time of request for financial hardship status, is at least 60 percent of the district's total bonding capacity. Outstanding bonded indebtedness includes that part of general obligation bonds, Mello-Roos Bonds, School Facility

Improvement District Bonds and certificates of participation which the district is paying a debt service that was issued for capital outlay school facility purposes.

- (2) The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).
- (3) It is a County Superintendent of Schools.
- (4) The district's total bonding capacity at the time of the request for financial hardship status is \$5 million or less.
- (5) Other evidence of reasonable effort as approved by the SAB.

If the district's request for financial hardship status is denied by the Board, the district may be deemed eligible for rental payments of \$2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation that it is unable to afford the full rental amount and any other information satisfactory to the Board that the rental reduction is necessary. The number of classrooms eligible for the \$2,000 rental payments shall be the sum of the numbers determined in (c)(5)(B) as follows:

- (A) Determine the number of pupils by grade level that the district requested a New Construction Grant on the Form SAB 50-04 that were denied financial hardship status.
- (B) Divide the number by grade level determined in (c)(5)(A) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

If the district meets the financial hardship requirements in this Section, the amount of financial hardship is equal to the district's matching share less funds deemed available in (a).

Once a district has been notified by the OPSC that it meets the requirements of financial hardship in this Section, the district may file Form SAB 50-04 under the provisions of financial hardship anytime within a period of 180 calendar days from the date of the OPSC notification.

If the district does not submit Form SAB 50-04 under the provisions of financial hardship within 180 calendar days of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status under the provisions of this Section by submittal of a new request for financial hardship status.

If the district submits Form SAB 50-04 within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds pursuant to (a) will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Financial hardship approval status by the OPSC for a separate design and/or site apportionment does not apply to any subsequent funding for the project(s).

Section 1859.81.1. Separate Apportionment for Site Acquisition and Design Costs.

A district that meets the financial hardship criteria in Section 1859.81 is eligible for the following:

- (a) For a new construction project, a separate apportionment for site acquisition, with the exception of site acquisition funding authorized by Section 1859.81.2 or for projects receiving funding pursuant to the Overcrowding Relief Grant, Section 1859.180, when all the following requirements are met:
 - (1) The district has eligibility for grants that equal at least 50 percent of the CDE master plan capacity of the site.

- (2) The district has received a contingent site approval letter from the CDE indicating that the proposed site is the best available.
 - (3) The district has obtained a preliminary appraisal of the property by a qualified appraiser utilizing criteria outlined in Section 1859.74.1. This report may be made without access to the site.
 - (b) If the conditions in (a) are met on a site that does not require a RA, the Board will apportion all of the following less any district funds available for the project pursuant to Section 1859.81(a):
 - (1) An amount not to exceed 100 percent of the lesser of the preliminary appraised value of the site as determined by Section 1859.74.1 or the amount the district reasonably expects to pay for the site including any hazardous material clean-up.
 - (2) The estimated relocation expenses that will conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment, and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.
 - (3) Four percent of the lesser of the preliminary appraised value of the site or the amount the district reasonably expects to pay for the site acquisition including any hazardous material clean-up but not less than \$50,000.
 - (4) The estimated DTSC costs for review, approval, and oversight of the POESA and the PEA.
 - (c) If the conditions in (a) are met on a site that will require a RA, the district is eligible for a separate site apportionment not to exceed 50 percent of one and one half times the value of an appraisal that conforms to Section 1859.74.1 for the costs included in (c)(1) and (c)(4) plus the additional costs included in (c)(2) and (c)(3). The costs included in (c)(2) and (c)(3) are in addition to 50 percent of one and one half times the appraisal value cap.
 - (1) The cost of the site as determined in Section 1859.74.1 and the amount the district reasonably expects to pay for any hazardous materials/waste removal and/or remediation costs for the site.
 - (2) Fifty percent of the estimated relocation expenses that will conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment, and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.
 - (1) Fifty percent of four percent of the lesser of the appraised value of the site or the amount the district reasonably expects to pay for the site acquisition including any hazardous materials/waste removal and/or remediation costs for the site, but not less than 50 percent of \$50,000.
 - (2) The estimated DTSC costs for review, approval and oversight of the POESA and the PEA.
 - (d) The limitation of 50 percent of one and one half times the value of an appraisal for costs in subsections (c), (c)(1) and (c)(4) may be exceeded when the Board finds that unforeseen circumstances exist, and when both of the following exist:
 - (1) CDE determines that the site is the best available site for meeting the educational and safety needs of the School District.
 - (2) Substantiation that the costs are limited to the minimum required to complete the evaluation and RA approved by the DTSC.
 - (e) For new construction projects, the Board will apportion an amount not to exceed 40 percent of the new construction grant less any district funds available for the project pursuant to Section 1859.81(a). For modernization projects, the Board will apportion an amount not to exceed the following:
 - (1) If the Approved Application is received on or before April 29, 2002, 20 percent of the modernization grant less any district funds available for the project pursuant to Section 1859.81(a).
 - (2) If the Approved Application is received after April 29, 2002, 25 percent of the modernization grant less any district funds available for the project pursuant to Section 1859.81(a).
- The amount apportioned is an estimate of the funds needed for design, engineering, and other pre-construction project costs.

Qualifying districts may request a separate apportionment for the design and for site acquisition for the same new construction project. Those projects requesting an Overcrowding Relief Grant, pursuant to Section 1859.180, do not qualify for these separate apportionments.

The amount provided as a separate apportionment shall be offset from the New Construction Adjusted Grant or the Modernization Adjusted Grant amount the district would otherwise be eligible for pursuant to Sections 1859.70 and 1859.81 when the district submits Form SAB 50-04. A district seeking a separate apportionment for site acquisition or design costs shall submit Form SAB 50-04. If a new construction project received a previous design apportionment, the district may request an additional design apportionment for that project up to the 40 percent maximum design apportionment allowed pursuant to this Section.

The Form SAB 50-04 that is subsequently submitted for the New Construction Adjusted Grant must be for at least 50 percent of the New Construction Grant the district requested as a separate design apportionment.

The Form SAB 50-04 that is subsequently submitted for the Modernization Adjusted Grant must be for at least 80 percent of the Modernization Grant the district requested as a separate design apportionment that was received on or before April 29, 2002.

The Form SAB 50-04 that is subsequently submitted for the Modernization Adjusted Grant must be for at least 60 percent of the Modernization Grant the district requested as a separate design apportionment that was received after April 29, 2002.

When the Board is accepting applications pursuant to Section 1859.95, the funding of the new construction or modernization grant may be made from funds set aside by the Board for financial hardship. The amount provided as a separate apportionment shall be adjusted at a future date to assure that hardship funding for the project does not exceed the amount the district was otherwise eligible to receive.

Section 1859.81.2. Separate Apportionment for District-Owned Site Acquisition Costs.

A district that meets the financial hardship criteria in Section 1859.81, with the exception of those projects requesting an Overcrowding Relief Grant pursuant to Section 1859.180, is eligible for the following:

- (a) A separate apportionment for district-owned site acquisition cost authorized by Section 1859.74.5 when all the following are met:
 - (1) The district has eligibility for new construction grants that equal at least 50 percent of the CDE master plan capacity of the site.
 - (2) All the criteria in Section 1859.74.5(a)(1) through (1)(7) are met.
- (b) If the conditions in (a) are met, the Board will apportion one half of the value of the district-owned site as determined in Section 1859.74.5(b).

Section 1859.103. Savings.

A district may expend the savings not needed for a project on other high priority capital facility needs of the district including the relocation of district facilities necessary as a result of Subdivision (b) of Education Code Section 17072.12. The grants for the projects funded pursuant to Section 1859.70.2 or Section 1859.180 shall be limited to eligible expenditures, up to the State Apportionment for the project. Savings may be declared by the district in writing to the OPSC any time after the release of all funds for the project.

With the exception of savings attributable to a site apportionment made pursuant to Sections 1859.74.5 or 1859.81.2, the State's portion of any savings declared by the district or determined by the OPSC by audit must be used to reduce the SFP financial hardship grant of that project or other financial hardship projects within the district for a period of three years from the date the savings were declared by the district or determined by the OPSC audit. The State's portion of any savings from a new construction project or a Joint-Use Project may be used as a district matching share requirement, only on another new construction project, and the State's share of any savings from a modernization project may be used as a district matching share requirement, only on another modernization project.

Any interest earned on a financial hardship project not expended on eligible project expenditures will be treated as savings and will be used to reduce the SFP financial hardship grant for that project.

Section 1859.104. Program Reporting Requirements.

A district receiving funds in accordance with the Act shall submit the following:

- (a) An expenditure report from the district on the Form SAB 50-06. The program reporting requirements are as follows:
 - (1) The first expenditure report shall be due one year from the date that any funds were released to the district for the project pursuant to Section 1859.90, or upon completion of the project, whichever occurs first. A project shall be deemed complete when either of the following occur:
 - (A) When the notice of completion for the project has been filed, all outstanding invoices, claims, change orders have been satisfied and the facility is currently in use by the district.
 - (B) Three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.
 - (2) The second and subsequent expenditure reports, if necessary, shall be due annually beginning one year from the first report, or upon completion of the project, whichever occurs first. The final expenditure report must be made no later than three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.
- (b) With the exception of projects that qualify for an apportionment pursuant to Section 1859.75.1, a progress report, in the form of a narrative from the district, shall be due 18 months from the date any funds were released to the district for the project pursuant to Section 1859.90. The progress report shall include information regarding the progress the district has made towards substantial completion of the project. If the notice of completion has been filed within 18 months of the release of funds pursuant to Section 1859.90, or the expenditure reports required in (a)(1) or (2) indicate that substantial progress (as defined in Section 1859.105) on the project has occurred, no progress report is required.
- (c) A progress report, in the form of a narrative from the district, shall be due 12 months from the date the site acquisition funds were apportioned to the district for the project pursuant to Section 1859.75.1. The progress report shall include information regarding the progress the district has made towards acquiring the site as outlined in Section 1859.105.1 and may contain other evidence of reasonable effort to substantiate progress towards acquiring the site for purposes of an extension of the site apportionment as authorized by Education Code Section 17072.13(c)(2).
- (d) If an apportionment was made for a district-owned site pursuant to Section 1859.74.5, a certification that the non-school function currently taking place on the district-owned site has been discontinued or relocated. The certification must be submitted to the OPSC no later than the following dates:
 - (1) If the project is for an elementary school, 66 months from the date of the site apportionment.
 - (2) For all other projects, 78 months from the date of the site apportionment.
- (e) If an Apportionment was made under the Small High School Program pursuant to:
 - (1) Section 1859.78.9 or Section 1859.93.2, a cost evaluation report shall be due to the OPSC no later than two complete school years after the Occupancy of the approved project.

- (2) Section 1859.93.2, the district must provide a preliminary report on any academic data requested by CDE two complete school years after the Occupancy of the approved project. The final report shall be due no later than two complete school years after the OPSC notifies the district of the Occupancy of the last approved project.
- (f) If an Apportionment was made under the Overcrowding Relief Grant pursuant to Section 1859.180, the School District must provide a certification that the replaced portables were removed from the eligible site and from service per Education Code Section 17079.30.

Section 1859.181. Eligible Schools.

An eligible school is a school for which the school site pupil population density is equal to or greater than 175% of the school site pupil population density recommended by the CDE, based on the CBEDS Report [as of January 1, 2006 for the 2005/2006 enrollment year](#), adjusted by the CDE by the following factors:

- (a) Reduced to take into account the additional pupil capacity created by multistory construction.
- (b) Reduced to take into account approved new construction projects, including projects approved pursuant to the Critically Overcrowded School Facilities Program, Education Code Sections 17078.10 through 17078.30, unless the School District can demonstrate that those projects are not impacting density at the eligible school site.

In order to determine the school site pupil population density, the School District shall complete and submit to the CDE the Overcrowding Relief Grant [Pupil Adjustment Eligibility Determination](#) form. ~~The School District shall also complete and submit to the OPSC the Form SAB 50-11.~~

- (a) For purposes of the Overcrowding Relief Grant, an eligible pupil is a pupil that is housed in a portable classroom at the eligible school site, less the prorated number of portables that were funded by the Class Size Reduction Program pursuant to Chapter 6.10 of the Education Code. The Class Size Reduction prorate shall be calculated as follows:
- (1) Determine the total number of portables funded pursuant to Chapter 6.10 of the Education Code.
- (2) Divide the ~~total number of elementary~~ amount determined in (a)(1) by the total number of schools currently in the School District ~~that serve grades K-3 by the amount determined above.~~
- The resulting number of classrooms must be reduced from each eligible ~~elementary~~ school site ~~that serves grades K-3.~~ The total number of portable classrooms that are reduced from all eligible school sites shall not exceed the amount determined in (a)(1).

The determination of site specific and district-wide pupil eligibility may be adjusted as follows:

- (A) Reduced by the number of eligible pupils that receive an Overcrowding Relief Grant.
- (B) Adjusted as a result of errors or omissions by the School District or by the OPSC.
- (b) The determination of the site specific Overcrowding Relief pupil eligibility shall be determined by the CDE on the Overcrowding Relief Grant Pupil Adjustment Eligibility Determination and will be conducted on a one-time basis for each eligible school, but may be adjusted as follows:
 - (1) Reduced by the number of eligible pupils that receive an Overcrowding Relief Grant.

The maximum number of Overcrowding Relief Grants for each eligible school site shall be subject to the following limitations:

- (1) The number of Overcrowding Relief Grants may not exceed the number of pupils whose removal from the pupil density calculation would reduce the density of the eligible school site to 150 percent of the school site pupil population density recommended by the CDE, based on the CBEDS in effect as of January 1, 2006 reported for the 2005/2006 enrollment year.
- (2) The number of Overcrowding Relief Grants may not exceed the capacity of those portables on the eligible school site that are being replaced in the project.

In no event shall a School District receive in total more Overcrowding Relief Grants than the number of pupils housed in portable classrooms that were included in the School District's initial new construction eligibility determination pursuant to Education Code 17071.75 as identified in part on Line 1 of Part III of the Form SAB 50-02 and as calculated on the Form SAB 50-11.

The Overcrowding Relief Grant must be used to replace an equivalent number of portable classrooms with permanent classrooms. Those portables that are replaced with Overcrowding Relief Grants must be removed from the eligible school site and from K – 12 grade classroom use, pursuant to Education Code Section 17079.30, within six months of the date of Occupancy of the replaced permanent classrooms. APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 02/07/06/06)

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. GENERAL INFORMATION

As part of the district's request for new construction funding for the Overcrowding Relief Grant (ORG) under the School Facility Program (SFP), a determination of the district's District-wide/High School Attendance Area (HSAA)/Super HSAA pupil eligibility must be made. This shall be a one time report that is determined based upon the information reported on the district's Existing School Building Capacity (Form SAB 50-02) at the time the district established its SFP new construction eligibility. If the district has not established its new construction eligibility, it will be required to do so for purposes of determining district-wide eligibility for the ORG program.

In order to determine site specific pupil eligibility the district must complete the California Department of Education's (CDE) Overcrowding Relief Grant [Eligibility Determination Pupil Adjustment](#) form.

SPECIFIC INSTRUCTIONS

If the district is submitting this form to correct an error or omission that was previously reported, please check the appropriate box.

Section I – Classroom Inventory

Complete the school district information as requested. If the high school district, unified school district, or county superintendent of schools established the SFP new construction eligibility on a HSAA or Super HSAA basis, it must submit one Form SAB 50-11 for each HSAA or Super HSAA.

Provide the requested information to complete the calculation of the district/HSAA eligibility.

Section III – Class Size Reduction Program Information and Calculation of Prorate
