 - (3) The locale of each project shall be identified as Urban, Suburban or Rural.
 - (4) The Board shall apportion funds within each Service Region to the highest ranked project in each locale. In order to continue this funding process, one project from each locale must be apportioned. If there are no applications in a given locale(s), projects will be apportioned in the remaining locale(s).
 - (5) The process will continue until the applications or funds are exhausted within each Service Region as prorated pursuant to Section 1859.195.
 - (6) In the event two or more applications within a Service Region have the same career technical education plan score and are in the same locale, the applicant with the highest total points in all weighted areas identified in Education Code Section 17078.72(j) will be funded first.
- (b) In the second funding cycle, the Board shall fund eligible Career Technical Education Facilities Projects as described in (a) until the applications or funds are exhausted within each Service Region or until the conditions in (1) and (2) are met:

One of each locale must be accounted for before a locale is repeated.

- (c) For the third and any subsequent cycles, the Board shall apportion funds regardless of Service Region.
- (1) Funds shall be apportioned to the highest ranked project in each locale. In order to continue this funding process, one project from each locale must be apportioned. If there are no applications in a given locale(s), projects will be apportioned in the remaining locale(s).
 - (2) The process will continue until the applications or funds are exhausted, whichever comes first.
 - (3) In the event two or more applications have the same career technical education plan score and are in the same locale, the applicant with the highest total points in all weighted areas identified in Education Code Section 17078.72(j) will be funded first.

If a Career Technical Education Facilities Project cannot be fully apportioned because insufficient funding is available, the applicant may either accept the available funding as the full and final apportionment for the project or refuse funding entirely. If funding is refused, the Board shall consider funding the next project eligible for an apportionment based on the above funding priority mechanism. If an applicant refuses funding, the application shall automatically carry over to the subsequent cycle or the applicant may request that the application be returned.

For any Career Technical Education Facilities Project not apportioned under the funding mechanism described above, the application shall automatically carry over to the subsequent cycle or the applicant may request that the application be returned. A Career Technical Education Facilities Project returned to the

GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."
