

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, March 24, 2010

MODERNIZATION FUNDING FOR ACCESSIBILITY AND FIRE CODE REQUIREMENTS

PURPOSE OF REPORT

To propose revisions to School Facility Program (SFP) forms and regulations for Modernization Excessive Cost Hardship Grant for accessibility and fire code requirements (accessibility).

BACKGROUND

Statute governing the administration of the SFP authorizes the State Allocation Board (SAB) to provide funding as a result of unusual circumstances that create excessive project costs beyond the control of the district. The excessive cost hardship grant related to this item is for accessibility requirements and the costs needed to perform these upgrades. The accessibility requirements are typically activated when a district performs modernization construction since many facilities were constructed before these requirements were in place.

At the May 1999 SAB meeting, the SAB established an excessive cost hardship grant that added three percent to modernization base funding. At the August 2006 SAB meeting, the SAB approved amendments to SFP Section 1859.83(f) as a trial to allow districts the option to choose an allowance based on three percent of the base grant or 60 percent of the minimum work necessary to meet accessibility and fire code requirements. At the August 2008 SAB meeting, Staff reported one full year of data from projects that received the accessibility and fire code allowance from August 2007 to July 2008. The report showed that districts that selected the 60 percent option received a significant increase in funding for accessibility and fire code requirements over the three percent option. The SAB approved Staff's report, and requested Staff to draft proposed amendments to SFP Regulation Section 1859.83(f) to discontinue the three percent option for the accessibility requirements grant allowance.

At the February 24, 2010 SAB meeting, Staff presented a report recommending that the three percent option remain for like-kind replacement projects and the 60 percent grant apply for all other projects. The SAB did not adopt the proposed amendments and determined that the SFP will continue to provide both options for accessibility grants. Subsequently, one of the proposed amendments for a replacement project did not receive approval. Also, the SAB decision to continue with funding options for accessibility grants triggered discussions on whether there is still a need to require the itemized list of accessibility elements for projects that include a request for a three a percent allowance.

AUTHORITY

Education Code Section 17075.10(b)(2) states that a school district may apply for hardship assistance if it can demonstrate that due to unusual circumstances that are beyond the control of the district, excessive costs need to be incurred in the construction of school facilities.

SFP Regulation Section 1859.79.2(a) states that Modernization Grant Funds may not be used for new building area. However, it can be used for replacing building area of like-kind based on square footage and new building area required by the federal Americans with Disabilities Act (ADA) or by the handicapped access requirements enforced by the Division of the State Architect.

(Continued on Page Two)

AUTHORITY (cont.)

SFP Regulation Section 1859.83(f)(1) currently provides for a Modernization Excessive Cost Hardship Grant for accessibility and fire code requirements. Districts have the option of selecting either three percent of the modernization base grant or 60 percent of the estimated hard construction costs for minimum work necessary for accessibility and fire code requirements, as verified by the DSA.

For projects constructed pursuant to SFP Regulation Section 1859.79.2(a) (replacement building area of like-kind), SFP Regulation Section 1859.83(f)(2) allows for a Modernization Excessive Cost Hardship grant for accessibility and fire code requirements equal to three percent of the Modernization Grant.

STAFF COMMENTS

Replacement Projects

SFP Regulations allow the use of modernization grants for replacement of building area of like-kind. In a replacement project, accessibility elements are embedded in the design of the building. However, the same project may involve multiple buildings, actual modernization work in addition to replacement, and site work that represents accessibility upgrades (such as ramps, drinking fountains, lifts, etc.). Existing regulations do not provide the accessibility grant based on 60 percent of estimated costs of accessibility compliance. Projects with any replacement work in the plans can only receive the three percent allowance.

Replacement projects that contain conventional modernization work and/or site improvements may be able to qualify for more funding for verified accessibility elements from the 60 percent option. In its February 24, 2010 report to the SAB, Staff proposed to allow both grant options for replacement projects. However, since the SAB did not adopt the proposed regulations, this change was not approved. Attachment A to this report provides a regulation amendment to allow the two grant options to be awarded to all projects, including those that include replacement of buildings.

SAB received a request for proposed changes to apply to like-kind replacement projects filed on or after March 1, 2010. Staff determined that grandfathering in absence of effective regulations is not feasible. School districts with like-kind replacement projects will not be able to request the 60 percent grant option until the proposed regulations become effective.

Checklist for Modernization Accessibility/Fire Code Requirements

The DSA checklists are used to itemize the minimum work necessary to meet accessibility requirements. The estimates indicated on the checklists are used to determine the grant allowance provided through the 60 percent option. Also, Staff uses the checklists to determine which option maximizes the funding for districts under this grant allowance.

Staff presented reports to the Implementation Committee and SAB on several occasions and at this time no further analysis or comparison has been requested by the SAB on the three percent and 60 percent options for accessibility.

(Continued on Page Three)

STAFF COMMENTS (cont.)

Stakeholders question the need for the checklists when a district selects the three percent allowance to fund accessibility costs in a project. As explained above, the current requirement is based on prior SAB direction to gather data and evaluate both grant options. Since the SAB recently decided to retain both options, Staff recommends further discussion of whether the requirement for a checklist submittal should continue for projects designating a three percent allowance. Itemization of accessibility items is not necessary for calculating the grant when the three percent allowance is designated.

OPTIONS FOR CHECKLIST SUBMITTALS

Option 1 - **Continue to require all projects, except replacement projects seeking the three percent grant option, to include the DSA accessibility and fire code checklists.**
Attachment B contains corresponding form changes.

Pro:

- If the SAB requests future reports on accessibility costs, the OPSC would have the data on file for all projects to generate reports based on the costs identified on the checklists.

Con:

- Districts would be required to have architects complete the DSA accessibility and fire code checklists even though the minimum costs are not used to determine the grant allowance for the three percent option.

Option 2 - **Only require districts requesting the 60 percent option to submit the DSA accessibility and fire code checklists.**
Attachment C contains corresponding form changes.

Pro:

- Streamlines the submittal process and relieves districts requesting the three percent option from having to submit the checklists.

Cons:

- The OPSC would be unable to determine if the three percent or 60 percent option is more beneficial in terms of providing additional funding.
- If the SAB requests future reports on accessibility costs, the OPSC would not have the data on file to generate reports.

RECOMMENDATIONS

1. Approve the proposed regulatory amendments as presented on Attachment A.
2. Seek the SAB direction on the Option for Checklist submittal.
3. Authorize the Executive Officer to file regulations and form changes with the Office of Administrative Law.

BOARD ACTION

In considering this item, the SAB approved staff's Option #2, which would require school districts requesting the 60 percent option to submit the DSA accessibility and fire code checklists, and allows the Executive Officer to submit the proposed regulatory amendments (Attachment A) and form changes (Attachment C) to the Office of Administrative Law.

GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 04/08/03/10)

- Written confirmation from the district's career technical [education](#) advisory committee indicating that the need for vocational and career technical facilities is being adequately met within the district consistent with Education Code Sections 51224, 51225.3(b), 51228(b), and 52336.1.

Prior to acceptance of an application for funding that includes a financial hardship request, the district must have its financial hardship status "pre-approved" by the Office of Public School Construction (OPSC). To apply for a financial hardship "pre-approval", consult the OPSC Web site at www.opsc.dgs.ca.gov.

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. If the eligibility for this project was established as a result of the need for new

or replacement facilities pursuant to Section 1859.82 (a) and (b), seismic replacement or seismic rehabilitation for the Most Vulnerable Category 2 Buildings, or rehabilitation pursuant to Section 1859.83 (e), check the appropriate box(es).

If this request is for an addition to an existing site and advance funding for the evaluation and RA costs, check the appropriate box and refer to Section 1859.74.4.

If this request is for an Overcrowding Relief Grant, check the New Construction (Overcrowding Relief Grant) box.

If this request is to convert a Preliminary Apportionment or a Preliminary Charter School Apportionment to a Final Apportionment, check the New Construction Final Apportionment, New Construction Final Charter School Apportionment or the Rehabilitation Final Charter School Apportionment box, as appropriate.

If the district is requesting a separate site and/or design apportionment, complete boxes 2a, 3, 4, the site acquisition data in box 5 (d and e), and boxes 12, 13, 14, 15 and 23 only.

2. Type of Project

- Select the type of project that best represents this application request and enter the total number of pupils assigned to the project for each grade group. Include pupils to be housed in a new or replacement school authorized by Section 1859.82 (a). The amount entered cannot exceed the district's baseline eligibility determined on Form SAB 50-03 and will be the basis for the amount of the new construction or modernization grants provided for the project.

If this request is for a Final Apportionment, the pupils assigned to the project must be at least 75 percent, but not more than 100 percent, of the pupils that received the Preliminary Apportionment. Refer to Section 1859.147.

For ORG projects, the amount entered cannot exceed the Overcrowding Relief Pupil Eligibility (pursuant to Section 1859.182 and 1859.183) as reflected in the total number of eligible pupils determined by the Form SAB 50-11 or the CDE Overcrowding Relief Grant Eligibility Determination form.

- Check the box if the project is eligible for funding for 50 year or older permanent buildings and report, at the option of the district:
 - The total number of eligible classrooms or the total eligible square footage building area at the site. Refer to Section 1859.78.6(b)(1)(A) or (b)(2)(A).

 - Enter the greater percentage as calculated under Regulation Section 1859.78.6(b)(1)(C) or Regulation Section 1859.78.6(b)(2)(C).
 - If this project includes eligible 50 year or older pupil grants, enter the appropriate number assigned to the project for each grade group. The number of pupils entered cannot exceed the cumulative number of 50 year or older permanent buildings pupil grants requested for all modernization funding applications for the site as determined by using the percentage factor above.

- Check the applicable box if the district is requesting additional pupil grants assigned to the project that exceed the capacity of the project or if the pupils

assigned represent eligibility determined at another grade level and check the appropriate box to indicate under which regulation the district is applying. The pupil capacity of the project may be determined by multiplying the classrooms reported in box 3 by 25 for K–6; 27 for 7–8, 9–12 grades; 13 for non-severe and 9 for severe.

- f. If the request is for replacement facilities pursuant to Section 1859.82 (a) or (b) on the same site, check the facility hardship box.
- g. Enter the square footage of the non-toilet area and toilet area contained in the rehabilitation project.

- Proposed Useable Acres that was/will be purchased as part of the application (if any).

4. Financial Hardship Request

Check the box if the district is requesting financial hardship assistance because it is unable to meet its matching share requirement. Refer to Section 1859.81 for eligibility criteria. Districts requesting financial assistance must have received a pre-approval for financial hardship status by the OPSC. Consult the OPSC Web site at www.opsc.dgs.ca.gov for details and necessary documentation needed in order to determine eligibility.

5. New Construction Additional Grant Request

Check the appropriate box(es) if the district requests an augmentation to the new construction grant for "additional" grants for the items listed or for replacement facilities pursuant to Section 1859.82(a) and (b). APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 04/08/03/10)

- Written confirmation from the district's career technical [education](#) advisory committee indicating that the need for vocational and career technical facilities is being adequately met within the district consistent with Education Code Sections 51224, 51225.3(b), 51228(b), and 52336.1.

Prior to acceptance of an application for funding that includes a financial hardship request, the district must have its financial hardship status "pre-approved" by the Office of Public School Construction (OPSC). To apply for a financial hardship "pre-approval", consult the OPSC Web site at www.opsc.dgs.ca.gov.

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. If the eligibility for this project was established as a result of the need for new

or replacement facilities pursuant to Section 1859.82 (a) and (b), seismic replacement or seismic rehabilitation for the Most Vulnerable Category 2 Buildings, or rehabilitation pursuant to Section 1859.83 (e), check the appropriate box(es).

If this request is for an addition to an existing site and advance funding for the evaluation and RA costs, check the appropriate box and refer to Section 1859.74.4.

If this request is for an Overcrowding Relief Grant, check the New Construction (Overcrowding Relief Grant) box.

If this request is to convert a Preliminary Apportionment or a Preliminary Charter School Apportionment to a Final Apportionment, check the New Construction Final Apportionment, New Construction Final Charter School Apportionment or the Rehabilitation Final Charter School Apportionment box, as appropriate.

If the district is requesting a separate site and/or design apportionment, complete boxes 2a, 3, 4, the site acquisition data in box 5 (d and e), and boxes 12, 13, 14, 15 and 23 only.

2. Type of Project

- Select the type of project that best represents this application request and enter the total number of pupils assigned to the project for each grade group. Include pupils to be housed in a new or replacement school authorized by Section 1859.82 (a). The amount entered cannot exceed the district's baseline eligibility determined on Form SAB 50-03 and will be the basis for the amount of the new construction or modernization grants provided for the project.

If this request is for a Final Apportionment, the pupils assigned to the project must be at least 75 percent, but not more than 100 percent, of the pupils that received the Preliminary Apportionment. Refer to Section 1859.147.

 - If this project includes eligible 50 year or older pupil grants, enter the appropriate number assigned to the project for each grade group. The number of pupils entered cannot exceed the cumulative number of 50 year or older permanent buildings pupil grants requested for all modernization funding applications for the site as determined by using the percentage factor above.
- If this request includes pupil grants generated by an Alternative Enrollment Projection Method, enter the number of pupils by grade level.
- Indicate if this request is for funding of a 6-8 school and/or an Alternative Education School.
- Check the applicable box if the district is requesting additional pupil grants assigned to the project that exceed the capacity of the project or if the pupils

assigned represent eligibility determined at another grade level and check the appropriate box to indicate under which regulation the district is applying. The pupil capacity of the project may be determined by multiplying the classrooms reported in box 3 by 25 for K–6; 27 for 7–8, 9–12 grades; 13 for non-severe and 9 for severe.
