

**T**he Medical Therapy Unit and nine-classroom special education facility at the school serve to provide critical state-of-the-art physical and occupational therapy services to the greater Oxnard community and meet the current demand for technologically integrated classrooms for students with moderate to severe disabilities within Ventura County. The project represents the first new classroom facility built by the Ventura County Office of Education in more than 20 years.

Poul Hanson, Facilities Director; Alan Camerano, DC Architects; Judy Greycloud, Principal; John Gahan, Special Education Executive Director
