

STATE AGENCY WORKSHOPS:

SCHOOL PLANNING, DESIGN, AND FUNDING UPDATES

WITH FOCUSED ASSISTANCE FOR
SMALL SCHOOL DISTRICTS

The Office of Public School Construction (OPSC), the Division of the State Architect (DSA), and the California Department of Education (CDE) are conducting free workshops across the state to provide information on school planning, design, and the availability of state funding to help Local Educational Agencies address their facility needs. These funds are from the recently passed Proposition 51. There will also be an opportunity for small school districts to directly address concerns and receive assistance.

Topics include the following:

- Master planning and educational specifications
- The process and requirements for each agency
- Grant Agreements
- Application processes moving forward
- Career Technical Educational Facilities Filing Rounds

Each workshop will include a presentation by the agencies, a question & answer session, and breakout opportunities for school districts with more unique circumstances.
