

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, September 27, 2006

SCHOOL FACILITY PROGRAM
ADJUSTMENTS TO THE NEW CONSTRUCTION BASELINE ELIGIBILITY

PURPOSE OF REPORT

To request:

1. Adoption of amendments to the School Facility Program (SFP) Regulations for adjustments to the new construction baseline eligibility for additional facilities provided after the new construction baseline eligibility has been established.
2. Authorization to file the proposed amendments with the Office of Administrative Law (OAL).

DESCRIPTION

At the October 2005 State Allocation Board (SAB) meeting, the SAB requested that Staff discuss at a future SAB Implementation Committee meeting the SFP Regulations relating to adjustments to the new construction baseline eligibility. The Board's request was made in response to school districts' concerns regarding different interpretations of the pertinent law and Regulation sections, and corresponds with queries to the Legislative Counsel on the same subject.

The issues of new construction baseline eligibility and the adjustments to the baseline required by law and regulations were discussed at three separate meetings of the Implementation Committee. As a result of those discussions, Staff has identified three issues that are addressed with the proposed regulation changes. These changes are needed to ensure that the SFP Regulations contain clear guidelines for reporting requirements for the adjustments to the new construction baseline eligibility, provide relief for school districts with ongoing lengthy construction and modernization projects, and allow school districts to replace facilities with local funds without a negative impact on the new construction baseline eligibility.

AUTHORITY

Education Code (EC) Section 17070.35 (a)(2) authorizes the Board to adopt rules and regulations in connection with the administration of the Leroy F. Greene School Facilities Act of 1998 as it deems necessary.

EC Sections 17071.10 and 17071.30 require an applicant school district to determine its existing school building capacity which shall be made on a one-time basis and used as the baseline for eligibility determination for new construction funding.

EC Section 17071.75 establishes the formula for calculating the district's ongoing eligibility for new construction funding, which shall include any facilities provided from any state or local funding source after the existing school building capacity was determined. SAB Legal Counsel has opined that this section is mandatory and cannot be waived or diluted, and the Board cannot exempt any subsequently acquired facility from the count of adequate capacity for purposes of determining ongoing eligibility.

STAFF COMMENTS

At the February 2006 Implementation Committee meeting, Staff gathered feedback from Committee members and school district representatives regarding the impact of changes in portable classroom inventories on the new construction baseline eligibility. At the April 2006 Implementation Committee meeting, Staff discussed resolutions to school districts' concerns within the scope of existing law and regulations, and presented proposals for regulatory changes. The draft regulation and form changes were

(Continued on Page Two)

STAFF COMMENTS (cont.)

further discussed at the May 2006 Implementation Committee meeting. The proposed regulation and form changes are contained in the Attachment and are summarized below:

Issue 1: Clarifying language for the required adjustments to the new construction baseline eligibility

Regulation Section 1859.51 specifies how a district's ongoing eligibility for new construction funding is calculated, including the required adjustments for additional classrooms provided from any state and local funding sources, after the new construction baseline eligibility is established by a district. Specifically, Regulation Section 1859.51(i) is intended to specify that a school district shall report any additional classrooms provided after the new construction baseline eligibility has been established with the exception of certain facilities, such as portable classrooms leased under the State Relocatable Classroom Program (SRCP), classrooms leased for less than five years, and facilities that were built or acquired for certain non-classroom purposes with funds specifically available for those purposes. These classrooms do not count as additional classrooms provided as these types of facilities are not long-term housing solutions.

The requirement that a district's ongoing eligibility for new construction funding be reduced by facilities provided with local funding sources was added as a result of Assembly Bill 695, Chapter 858, Statutes of 1999 (Mazzoni) after the inception of the SFP. During the process to implement this statute, the classrooms that are counted as additional capacity, and those that are not, were discussed at the Implementation Committee. In those discussions, it was agreed that portable classrooms that are acquired/constructed after the establishment of the baseline will reduce a district's ongoing eligibility for new construction funding regardless of the funding source.

As a matter of convenience, EC Section 17071.30 was referred to in the regulations to specify which classrooms did not have to be reported *after* a district's new construction baseline eligibility was established. In particular, EC Section 17071.30 specifies two options for a district to calculate its *existing* building capacity, and allows certain portable classrooms to be excluded from the calculation of that capacity. One option specifies that classrooms leased under the SRCP and portable classrooms leased less than five years shall not be considered as capacity. The second option specifies that the number of portables in a district that exceed 25 percent of its permanent classrooms shall not be considered as capacity. A district must choose between the two options in the determination of its existing building capacity as part of the calculation of the one-time baseline eligibility.

An unintended consequence of referring to the entire EC section is that some districts interpreted the regulation to mean that portables acquired with local funds after the establishment of a district's new construction baseline eligibility can be excluded and not reported as additional classrooms provided. This was not the intent of the regulation, and SAB Legal Counsel opined that this was not the intent of the statute.

The proposed amendment to Regulation Section 1859.51(i) removes the reference to EC Section 17071.30 and clarifies that the following classrooms do not have to be reported as additional classrooms provided after the new construction eligibility has been established:

- SRCP portable classrooms,
- Portable classrooms leased less than five years,

(Continued on Page Three)

STAFF COMMENTS (cont.)

- Portable classrooms leased more than five years when needed as interim housing on a single project (see below),
- Facilities that were built or acquired for certain non-classroom purposes with funds specifically available for those purposes,
- Portables counted in a district's existing building capacity that are subsequently replaced entirely with local funds and that are taken out of classroom use (see below).

Any classroom, whether permanent or portable that does not meet any of the conditions listed above, must be reported as additional capacity if it is leased, acquired or constructed after the new construction baseline eligibility has been established. This clarification of the regulation defining a classroom provided is in alignment with the agreements made at the Implementation Committee in 1999 when the statute was changed to add that facilities provided with local funding sources should also reduce a district's ongoing eligibility for new construction funding. Since the existing regulations can be interpreted otherwise, the Office of Public School Construction (OPSC) proposes to apply the proposed regulations prospectively for any new facilities for which contracts for the lease, purchase or construction are signed after the Board's approval of these regulations.

Issue 2: Portable classrooms leased for more than five years

Currently districts must report portables leased after the establishment of the existing building capacity once the portables have been leased for five years, whether in a single lease or cumulative total of several leases. These classrooms are then charged against the district's new construction baseline eligibility thereby reducing the district's ability to finance future projects to construct actual permanent classrooms. In many instances, it is conceivable that a project, from conception to occupancy, may take longer than a five-year period and therefore would require the continuation of the lease for the interim portables. Since the portables are and would continue to be leased on an interim basis, the classrooms would not be considered provided as required in statute to be charged against the district's new construction eligibility. Therefore, the proposed addition to Regulation Section 1859.51(i)(5) specifies that the five-year lease requirement shall be project specific and the district shall be eligible to continue to lease the classroom without a reduction to its new construction baseline eligibility for an additional time period as determined by the SAB, not to exceed three years.

Issue 3: Locally funded replacement projects

Current SFP Regulations require an adjustment to the new construction baseline eligibility for any classrooms provided in a locally funded project, including the classrooms that replace existing facilities. This policy results in the reduction of the district's eligibility for any future new construction projects and discourages efforts to raise local funds for facility projects that districts may consider outside of the SFP.

In considering regulatory changes to accommodate locally funded replacement projects without a reduction to the new construction baseline eligibility, Staff proposes additional amendments to the modernization eligibility of the SFP Regulations. These changes are necessary to ensure that the replaced facilities do not continue to generate modernization eligibility.

(Continued on Page Four)

STAFF COMMENTS (cont.)

In addition, Staff proposes changes to the financial hardship provisions of the SFP Regulations that would prohibit districts from seeking financial hardship assistance for a required period of time following the encumbrance of funds for replacement projects that are locally funded. This will require districts to consider the need for their matching share on future SFP projects when making expenditures on replacement projects. Since the use of local funds on replacement projects is a larger issue of prioritizing local resources, it is important to note that there is proposed legislation (Senate Bill 1415) that proposes to change the lockout period from five years to ten years for districts to participate in the SFP or the Deferred Maintenance Program when funds generated from the sale of surplus property are deposited in the general fund unless certain criteria are met.

The SAB Implementation Committee had discussions on the appropriate period of time districts should be prohibited from seeking financial hardship assistance when local funds are used for replacement facilities. While most considered that a five-year period was adequate, some Committee members considered a ten-year exclusion period more appropriate. As a result, Staff has presented the amendments on the Attachment with a five-year exclusion period; however, a ten-year exclusion period is noted as a footnote should the Board decide today that a ten-year exclusion period is more appropriate.

It is possible for a district to have an emergency situation that requires a facility replacement. In such cases, the Board may determine that the replacement of facilities with local funds should not preclude the district from seeking future financial hardship assistance. The regulatory changes presented herein apply to both permanent and portable classrooms and facilities.

RECOMMENDATIONS

1. Direct Staff to proceed with either a five-year or ten-year exclusion period as the period of time that districts should be prohibited from seeking financial hardship assistance when local funds are used for replacement facilities.
2. Adopt the proposed regulatory amendments as shown on the Attachment.
3. Authorize the OPSC to file these Regulations with the OAL.

BOARD ACTION

In considering this Item, the Board approved Staff's recommendations. The Board directed Staff to proceed with a five-year exclusion from Financial Hardship for districts using local funds to replace facilities.

Amend Regulation Section 1859.81 as follows:

Section 1859.81. Financial Hardship.

Except for Joint-Use Projects, a district is eligible for financial hardship to fund all or a portion of its matching share requirement after demonstrating both of the following the requirements of (a), (c), and (d) below:

- (a) The district is financially unable to provide all necessary matching funds for an eligible project. To determine this, an analysis shall be made of the district's financial records by the OPSC including data and records maintained by the CDE and the County Office of Education. The analysis shall consist of a review of the district's latest Independent Audit regarding funds available from all capital facility accounts, including, but not limited to, developer fees, funds generated from capital facility certificates of participation, federal grants, redevelopment funds, sale proceeds from surplus property, the appraised value of facilities approved for replacement pursuant to Section 1859.82, bond funds either encumbered, unencumbered or authorized but unsold, and savings from other SFP projects. All funds thus identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

After the initial request for financial hardship status is granted, no further encumbrances will be approved by the OPSC and all prospective revenue made available to the district's capital facility accounts shall be deemed available as matching contribution on the subsequent financial hardship review, with the exception of:

- (1) Approved interim housing expenditures.
- (2) Funding to pay for previously recognized multi-year encumbrances approved at the initial financial hardship approval.

- (3) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the Federal Renovation Program when the amount expended out of that fund does not exceed the maximum Federal Renovation Grant amount.
- (4) Funding that is transferred into a Special Reserve Fund and is used for the express purpose of the School Facilities Needs Assessment Grant Program or Emergency Repair Program when the amount expended out of that fund does not exceed the maximum grant amount apportioned.
- (5) All other capital facility funding for a period of three years when no subsequent financial hardship request is made during this period. The three-year period begins with the date of the most recent financial hardship new construction or modernization adjusted grant funding apportionment.

The financial hardship analysis is subject to approval by the Board.

- (b) From the funds deemed available as a matching contribution, the district may retain \$19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of classrooms needed for interim housing for the currently unhoused pupils shall be the sum of the positive numbers determined in (b)(7) as follows:
 - (1) Determine the current enrollment of the district by grade level as shown on the latest Form SAB 50-01.
 - (2) Determine the New Construction Grants apportioned by grade level for all SFP projects and LPP funded under the provisions of Sections 1859.12 or 1859.13 where the district has submitted Form SAB 50-06 indicating that the project is 100 percent complete.
 - (3) Subtract (b)(2) from (b)(1).
 - (4) Determine the number of classrooms by grade level reported in Part 1, Line 8 on Form SAB 50-02.
 - (5) Multiply the classrooms determined in (b)(4) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe.
 - (6) Subtract the product determined in (b)(5) from the difference determined in (b)(3) by grade level.
 - (7) Divide the difference by grade level determined in (b)(6) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain \$19,776 per portable toilet unit in each reporting period for the cost to provide necessary interim toilet facilities for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of toilet facilities needed for interim housing shall be the sum of the positive numbers determined in (b)(7) divided by eight rounded up to the nearest whole number.

If the district's available funds, as determined by the OPSC analysis less costs for interim housing, is less than its matching share, the district will be deemed to have met the requirements of this Subsection.

- (c) The district has made all reasonable efforts to fund its matching share of the project by demonstrating it is levying the developer fee justified under law or an alternative revenue source equal to or greater than the developer fee otherwise justified under law at the time of request for hardship and the district meets at least one of the following:
 - (1) The current outstanding bonded indebtedness of the district issued for the purpose of constructing school facilities in accordance with Education Code Section 17072.35 or 17074.25 as appropriate, at the time of request for financial hardship status, is at least 60 percent of the district's total bonding capacity. Outstanding bonded indebtedness includes that part of general obligation bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and certificates of participation which the district is paying a debt service that was issued for capital outlay school facility purposes.

- (2) The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).
- (3) It is a County Superintendent of Schools.
- (4) The district's total bonding capacity at the time of the request for financial hardship status is \$5 million or less.
- (5) Other evidence of reasonable effort as approved by the SAB.
- (d) The district has not signed a contract for acquisition or construction of classrooms that replace existing facility(ies), which were included in the determination of the district's new construction eligibility pursuant to Education Code Section 17071.75, in a locally funded project during the five-year period* immediately preceding the district's application for financial hardship assistance. This restriction may be lifted if the Board finds that unforeseen and extenuating circumstances existed that required the district to use local funds to replace the facility(ies).

If the district's request for financial hardship status is denied by the Board, the district may be deemed eligible for rental payments of \$2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation that it is unable to afford the full rental amount and any other information satisfactory to the Board that the rental reduction is necessary. The number of classrooms eligible for the \$2,000 rental payments shall be the sum of the numbers determined in (c)(5)(B) as follows:

- (A) Determine the number of pupils by grade level that the district requested a New Construction Grant on the Form SAB 50-04 that were denied financial hardship status.
- (B) Divide the number by grade level determined in (c)(5)(A) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

If the district meets the financial hardship requirements in this Section, the amount of financial hardship is equal to the district's matching share less funds deemed available in (a).

Once a district has been notified by the OPSC that it meets the requirements of financial hardship in this Section, the district may file Form SAB 50-04 under the provisions of financial hardship anytime within a period of 180 calendar days from the date of the OPSC notification.

If the district does not submit Form SAB 50-04 under the provisions of financial hardship within 180 calendar days of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status under the provisions of this Section by submittal of a new request for financial hardship status.

If the district submits Form SAB 50-04 within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds pursuant to (a) will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Financial hardship approval status by the OPSC for a separate design and/or site apportionment does not apply to any subsequent funding for the project(s).

GENERAL INFORMATION

This form is used by the School District to calculate the district's eligibility for new construction and modernization funding under the School Facility Program (SFP). The business address entered on the application should be the location that the school district wishes the Office of Public School Construction (OPSC) to mail all correspondence regarding this application.

Part I

Complete to designate or change the authorized district representative and/or alternate. Should this be the case, complete the school district information, identify the district representative(s) in Part I and complete the district certification information at the bottom of the form, including the date the district's governing board took appropriate action.

Part II

Complete for new construction baseline eligibility determination. This part is also used to request an adjustment to an approved new construction baseline eligibility as a result of subdivisions (f), (k) and (l) of Section 1859.51 due to either errors or omissions of information submitted by the district when it requested the initial baseline eligibility, because of a reorganization election that has changed the classroom inventory of the district or to change the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading. The following documentation is necessary to determine new construction baseline eligibility and must be submitted with this form:

- A completed Form SAB 50-01 based on the latest enrollment data.
- A completed Form SAB 50-02.

Part III

Complete for modernization baseline eligibility determination at a specific site. Districts must be able to provide a drawing of the site where eligibility for modernization is generated with its request for an eligibility determination. The drawing must identify all permanent and portable classrooms on the site and their ages. If the district intends to use the square footage method in Option B, the drawings must also identify the square footage of all facilities on the site.

Part III is also used to request an adjustment to the approved baseline eligibility at a specific site as a result of subdivisions (c), (d), (e), (g) and (i) of Section 1859.61 due to one or more of the following:

- an increase in enrollment,
- additional facilities becoming at least 20/25 years old,
- facilities becoming eligible for an additional modernization apportionment, for permanent school buildings every 25 years after the date of its previous apportionment or for portable classrooms every 20 years after the date of its previous apportionment,
- because of errors or omissions of information submitted by the district when it requested the initial baseline eligibility for the site, or

- to change the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading,
- a replacement of a facility that was previously deemed eligible for modernization but subsequently replaced in a project funded with local funds with no participation from the State. The district should submit a site diagram indicating the replaced facilities and a copy of the contract for construction or acquisition of facilities.

~~Complete for modernization baseline eligibility determination at a specific site. Districts must be able to provide a drawing of the site where eligibility for modernization is generated with its request for an eligibility determination. The drawing must identify all permanent and portable classrooms on the site and their ages. If the district intends to use the square footage method in Option B, the drawings must also identify the square footage of all facilities on the site. Part III is also used to request an adjustment to the approved baseline eligibility at a specific site as a result of subdivisions (c), (d), (e) (g) and (i) of Section 1859.61 due to either an increase in enrollment, additional facilities becoming at least 20/25 years old, facilities becoming eligible for an additional modernization apportionment, for permanent school buildings every 25 years after the date of its previous apportionment or for portable classrooms every 20 years after the date of its previous apportionment, because of errors or omissions of information submitted by the district when it requested the initial baseline eligibility for the site or to change the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading. The following documentation is necessary (if not previously submitted to the OPSC) to determine modernization baseline eligibility and must be submitted with this form (as appropriate):~~

- Site diagram of school where modernization funding is requested. The diagram must indicate the ages and number of all permanent and portable classrooms on the site in accordance with the gross classroom inventory as provided by Section 1859.31.
- If the modernization eligibility will be determined by Option B, the site drawings must also include square footage and/or dimensions of all buildings on the site.

~~If modernization funding is requested for permanent or portable classrooms previously modernized with State funds, and qualifies for an additional apportionment pursuant to Section 1859.78.8, for purposes of establishing the beginning of the 25/20 year, it shall begin on the date of its previous modernization apportionment.~~

It is not necessary to complete Part III if the district is only requesting funding for new construction and it is not necessary to complete Part II if the district is only requesting funding for modernization.

A district may request that eligibility for new construction or modernization be reviewed and approved by the Board pursuant to Section 1859.20 prior to submitting Form SAB 50-04 to the Board.

For a list of the documents that must be submitted in order for the OPSC to deem an eligibility request for new construction or modernization complete and ready for OPSC processing, consult the OPSC Web site at www.opsc.dgs.ca.gov.

**ELIGIBILITY DETERMINATION
SCHOOL FACILITY PROGRAM**

SAB 50-03 (REV 06/04/09/06)

SPECIFIC INSTRUCTIONS**Part I – District Representative Information**

Enter the name(s) of district employee(s) that can act on behalf of the district's board. A consultant who is on contract with the district to communicate with the OPSC on behalf of the district's board may be listed. The designee of the Superintendent of Public Instruction shall file modernization applications on behalf of the California Schools for the Deaf and Blind.

Part II – New Construction Eligibility Determination

Indicate if this request is for a new or adjusted eligibility determination. Enter the district-wide information unless filing on a High School Attendance Area (HSAA) or Super HSAA basis. The enrollment projection and the existing school building capacity data are obtained from information reported and determined on the Form SAB 50-01 and the Form SAB 50-02. Once the OPSC has verified the information provided on these forms, it will automatically be transferred to this form to determine the district's eligibility for new construction. The district may manually enter the information from these forms and compute its eligibility; however, it may be adjusted by the OPSC based on verification of Form SAB 50-01 and Form SAB 50-02.

1. Enter the five year projected enrollment as shown in Part G of Form SAB 50-01 for grades K–6, 7–8, 9–12 and for the total of non-severe and severe special day class (SDC) projected enrollment.
2. Enter the amounts on Form SAB 50-02, Part III, line 5 for grades K–6, 7–8, 9–12, non-severe and severe.
3. New construction eligibility (i.e., the "baseline eligibility") is determined by subtracting the existing school building capacity (line 2) from the projected five year enrollment (line 1). Report negative numbers in brackets.

Adjustments to the district's new construction baseline eligibility will be made by the OPSC pursuant to Section 1859.51. Contact your project manager at the OPSC for the adjusted baseline eligibility for future request for new construction grants.

Part III – Modernization Eligibility Determination

Modernization eligibility is calculated based on information at a specific site when modernization SFP grants are requested within the district. Therefore, completion of Form SAB 50-01 and Form SAB 50-02 are not needed to determine eligibility for modernization funding. Since the eligibility is site specific, the district must submit a separate Form SAB 50-03 for each site for which it is requesting modernization funding. Indicate if this request is for new baseline eligibility determination or for an adjustment to an approved baseline eligibility as a result of Section 1859.61.

The district may use one of two options to calculate its modernization eligibility at a specific site within the district. The district may select only one option at a time to calculate its modernization eligibility at any given school site. The district may switch options at a later date, if it results in a net gain in eligibility at the site, regardless of whether a funding application has been submitted. Hence, for purposes of adjusting modernization eligibility to include non-classroom buildings previously modernized under the Lease-Purchase Program, a district may switch options for the purposes of obtaining additional modernization apportionments as provided by Section 1859.78.8. To assure timely processing of the application, districts must provide a drawing of the site (if not previously submitted to the OPSC) where modernization funds are generated with the eligibility request to the OPSC. The drawing must identify all permanent and portable classrooms and their ages on the

site. If the square footage of Option B is selected, the drawings must also identify the square footages of all facilities on the site. In item 1, enter the school site name from the California Public School Directory published by the California Department of Education. For purposes of determining the age of the building for modernization funding, the 25/20 year period shall begin 12 months after the plans for the building were approved by the Division of the State Architect (DSA); or in the case of permanent or portable classrooms previously modernized with State funds, which are eligible for an additional apportionment, the 25/20 year period shall begin on the date of its previous modernization apportionment. Any drawing that includes classrooms eligible for an additional apportionment pursuant to Section 1859.78.8 should specify both the date the classroom's plans were originally approved by the DSA and the date of its previous modernization apportionment.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 06/06/09/06)

GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

Requests for funding may be made as follows:

1. A separate apportionment for site acquisition for a new construction project for environmental hardship pursuant to Section 1859.75.1. For purposes of this apportionment, the following documents must be submitted with this form (as appropriate):

 - Site approval letter from the CDE.
 - Appraisal of district-owned site.
 - Cost benefit analysis as prescribed in Section 1859.74.6 or a copy of the Board finding that the non-school function on the district-owned site must be relocated.
4. A separate apportionment for design cost for a modernization project pursuant to Section 1859.81.1. This apportionment is available only to districts that meet the financial hardship criteria in Section 1859.81. For purposes of this apportionment, the Form SAB 50-03 must accompany this form (if not previously submitted).
5. A New Construction Adjusted Grant pursuant to Section 1859.70. If the funding request includes site acquisition, the proposed site must either be owned by the district, in escrow, or the district has filed condemnation proceedings and received an order of possession of the site. For purposes of this apportionment, the following documents must be submitted with this form (as appropriate):
 - Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03 (if not previously submitted).

- Site/plan approval letter from the CDE.
- Appraisal of property if requesting site acquisition funds.

- Cost estimate of proposed site development, if requesting site development funding.
- If this request is pursuant to Section 1859.77.2 and the district's housing plan is other than those listed in the certification section of this form, a copy of the school board resolution and the approved housing plan.
- If the site apportionment is requested pursuant to Regulation Section 1859.74.5, a cost benefit analysis as prescribed in Regulation Section 1859.74.6 or a copy of the Board finding that the non-school function on the district-owned site must be relocated.
- If this is a request for funding under the Small High School Program, pursuant to Regulation Section 1859.93.2, the district must also provide a CDE Small High School academic reform strategy approval.

- If the request includes funding for 50 year old permanent buildings pursuant to Section 1859.78.6, a site diagram identifying all buildings to be modernized in the project. The diagram must specify those buildings that are at least 50 years old.

Prior to acceptance of an application for funding that includes a financial hardship request, the district must have its financial hardship status "pre-approved" by the Office of Public School Construction (OPSC). To apply for a financial hardship "pre-approval", consult the OPSC Web site at www.opsc.dgs.ca.gov.

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 06/06/09/06)

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. If the eligibility for this project was established as a result of the need for new or replacement facilities pursuant to Section 1859.82 (a) and (b), or rehabilitation pursuant to Section 1859.83 (e), check the appropriate box.

If this request is for an addition to an existing site and advance funding for the evaluation and RA costs, check the appropriate box and refer to Section 1859.74.4.

If the district is requesting a separate site and/or design apportionment, complete boxes 2a, 3, 4, the site acquisition data in box 5 (d and e), and boxes 12, 13, 14, 15 and 21 only.

2. Type of Project

- Select the type of project that best represents this application request and enter the total number of pupils assigned to the project for each grade group. Include pupils to be housed in a new or replacement school authorized by Section 1859.82 (a). The amount entered cannot exceed the district's baseline
