

REPORT OF THE EXECUTIVE OFFICER  
State Allocation Board Meeting, March 25, 2009

IMPLEMENTATION OF SENATE BILL 658

PURPOSE OF REPORT

To request adoption of proposed regulation amendments in order to implement Senate Bill (SB) 658, Chapter 271, Statute of 2008 (Romero), relating to the phase out of the Multi-Track Year-Round Education (MTYRE) Program Operational Grants and related School Facility Program (SFP) eligibility changes.

BACKGROUND

The Operational Grant is awarded by the California Department Education (CDE) to school districts that operate a MTYRE Program. The CDE establishes an annual report based on the number of students claimed by a district for Operational Grants. The Office of Public School Construction (OPSC) uses this report to establish and determine adjustments to a district's new construction eligibility.

As a part of establishing new construction eligibility, a district must complete an *Existing School Building Capacity* (Form SAB 50-02). The Form SAB 50-02 calculates the total number of pupils that may be housed in the district's gross classroom inventory. The calculation includes an increase to the classroom capacity based on the greater of either the Substantial Enrollment Requirement (SER) adjustment or the Operational Grants reported on the CDE's annual report. This increase results in an overall decrease to a district's new construction baseline eligibility. If a district's participation in the Operational Grant Program changes during subsequent fiscal years, an adjustment is made to its new construction eligibility pursuant to Regulation Section 1859.51(o).

AUTHORITY

SB 658 added Education Code (EC) Section 42270, which exempts school districts from the increase in school building capacity for Operational Grants received in the 2007/2008 Fiscal Year. The Bill phases out Operational Grant funding and reallocates the funds to the Charter School Facility Grant Program, as set forth in EC Section 47614.5.

SFP Regulation, Section 1859.35 reduces elementary and unified districts' new construction baseline eligibility by six percent to meet the provisions of the SER according to Education Code Sections 17017.6 and 17017.7. Some school districts qualify for a waiver to this requirement from the State Allocation Board (SAB).

STAFF COMMENTS

Staff presented the proposed regulation amendments at the March 12, 2009 Implementation Committee meeting and has incorporated the minor suggestions made.

As a result of the implementation of SB 658, some districts will have some or all of the previously lost new construction eligibility returned to their baseline.

Staff proposes the following SFP Regulation and SAB Form amendments:

***SFP Regulations***

- SFP Regulation Sections 1859.35(c) and 1859.51(j)(2) are removed in order to eliminate the requirement to reduce the new construction baseline eligibility for school districts applying for an initial eligibility determination.

(Continued on Page Two)

STAFF COMMENTS (cont.)

*SFP Forms SAB 50-02, 50-03, and 50-04*

- The SFP Forms SAB 50-02, 50-03, and 50-04 are revised to eliminate the sections pertaining to Operational Grant reporting for school districts requesting an initial new construction baseline eligibility determination.

RECOMMENDATIONS

1. Adopt the proposed amendments to the SFP Regulations and SFP Forms as shown on Attachments A through D and begin the regulatory process.
2. Authorize Staff to file the proposed SFP Regulations and SFP Forms with the Office of Administrative Law.

OFFICE OF PUBLIC SCHOOL CONSTRUCTION

Page 1 of 4

### GENERAL INFORMATION

As part of the district's request for new construction funding under the School Facility Program (SFP), a determination of the district's existing school building capacity must be made. This one time report and the Form SAB 50-01 are used to calculate the district's eligibility for SFP new construction funding. Once the district's existing school building capacity has been determined on this form, a determination of the district's baseline eligibility may be made, by completion of the Form SAB 50-03.

The following documentation is necessary and must be submitted with this form:

- A drawing of each school site within the boundaries of the district or the high school attendance area (HSAA) or Super HSAA that identifies all permanent and portable classrooms on the site that are included in the gross classroom inventory pursuant to Section 1859.31.
- A summary of each school site that identifies each classroom that qualifies for exclusion pursuant to Section 1859.32.
- A summary of all classrooms and exclusions for all sites within the district, the HSAA or Super HSAA (as appropriate).

A high school district, unified school district, or county superintendents of schools may file on a HSAA or Super HSAA basis as provided under Education Code Section 17071.76 and Section 1859.41. In that case, the facilities in that HSAA or Super HSAA shall be reported on this form.

After the Board has determined the initial baseline eligibility, this form is used to adjust that baseline eligibility pursuant to Section 1859.51 for the following:

- A change in the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading.
- Errors and/or omissions of the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity.
- A change in the classroom inventory of the district as a result of a reorganization election. This form is not used for modernization eligibility or funding applications.

For a list of the documents that must be submitted in order for the Office of Public School Construction (OPSC) to deem an eligibility request for new construction complete and ready for OPSC processing, consult the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov).

**SPECIFIC INSTRUCTIONS****PART I - Classroom Inventory**

Indicate if this request is for a new or adjusted Existing School Building Capacity determination. The district must first prepare a gross classroom inventory and make adjustment to the inventory pursuant to Sections 1859.31 and 1859.32. Contact the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov) for an EXCEL worksheet for preparation of this inventory. To assure timely processing of your application, districts must provide drawing(s) of each school site within the district, the HSAA or Super HSAA with the eligibility request to the OPSC (if not previously submitted to the OPSC). The drawing(s) must identify all permanent and portable classrooms and the specific reason why any classroom was excluded from the inventory pursuant to Section 1859.32.

Once the classroom inventory has been prepared, identify the classrooms in that inventory as follows:

Lines 1-6, report those classrooms included in the inventory that meet the definition of portable as provided by subdivision (k) of Education Code Section 17070.15 as follows:

1. Leased under the provisions of the State Relocatable Program. This includes portables approved for purchase, but with outstanding payments.\*
2. Leased or lease-purchased for less than five years. Include interim housing portables lease-purchased for less than five years.
3. Leased for interim housing purposes for less than five years.\*\*
4. Leased for interim housing for five years or more.\*\*
5. Leased or lease-purchased for five years or more. Include interim housing portables lease-purchased for five years or more.
6. Owned, including those acquired under the State Relocatable Program (i.e. no outstanding payments). Include interim housing portables owned.
7. Report the remaining classrooms in the inventory that do not meet the "Portable" definition that were reported on lines 1-6.

\* State Relocatable Classrooms approved for purchase by the Board shall be deemed owned by the district when the final lease payment is made to the Board, otherwise it is deemed to be leased, not lease-purchased.

\*\*Interim housing is defined as temporary classrooms used for modernization, therefore only portables leased may be considered interim. Lease-purchase agreements are not acceptable.

When reporting classrooms, identify each classroom based on its most typical use for grades K-6, 7-8, 9-12 or non-severely disabled individuals with exceptional needs (non-severe) and severely disabled individuals with exceptional needs (severe). If this request is to adjust the inventory for non-severe or severe pupil loading, the total classrooms reported must be equal to the classrooms reported at the time of the district request for initial determination of existing school building capacity. In no event may the number of classrooms reported for non-severe or severe pupils exceed the number of classrooms needed to house the projected number of non-severe and severe pupils shown on the Form SAB 50-01 using loading standards of 13 pupils for non-severe and 9 pupils for severe classrooms.

Continuation high classrooms must be counted as 9-12 teaching stations.

**PART II - Available Classrooms**

Once all classrooms have been identified and reported as either permanent or portable in Part I, the district may use one of two options for determining the final count of available classrooms which will be used to calculate the "existing school building capacity" of the district, the HSAA or Super HSAA.

**OPTION A**

Report the classrooms in Part I as reported on lines 4, 5, 6 and 7. Enter the totals on line e for grades K-6, 7-8, 9-12, non-severe or severe.

**OPTION B**

- a. Enter the totals of all classrooms reported in Part I, line 8 as either K-6, 7-8, 9-12, non-severe or severe.
- b. Enter the total number of all portable classrooms reported in Part I, lines 1, 2, 5 and 6.
- c. In the total column, report 25 percent of the total permanent classrooms reported in Part I, line 7. Round up.
- d. Subtract the total of line c from the total of line b and assign the total portables as either K-6, 7-8, or 9-12, non-severe or severe. Assignment of classrooms must be proportionate to the portable classrooms reported on lines 1, 2, 5, and 6 of Part I for each grade group. Classrooms assigned at a grade group cannot exceed the classrooms reported for that grade group on line a.
- e. Subtract line d from line a for grades K-6, 7-8, 9-12, non-severe or severe.

Unless specifically requested by the district, the OPSC will use the "total" of Option A or Option B that minimizes the existing school building capacity of the district, the HSAA or Super HSAA.

**Part III - Determination of Existing School Building Capacity**

1. Classroom capacity - After determining the lesser of the totals on line e of Option A or Option B in Part II, multiply the K-6 classroom total by 25, the 7-8 and 9-12 classroom totals by 27, the non-severe classrooms by 13 and the severe classrooms by 9, for the option selected.

2. Enter one of the following:

- 6 percent of the K-6 pupil capacity as reported on line 1, and 6 percent of the K-6 non-severe and severe classroom capacity for elementary and unified districts or unified districts filing on a HSAA or Super HSAA. The K-6 non-severe and severe classroom capacity shall be determined by applying a ratio of the K-6 classroom capacity reported on line 1 to the K-12 classroom capacity reported on line 1 multiplied by the non-severe and severe classroom capacity reported on line 1, Unified districts may allocate the 6 percent amount at any grade group.
- Indicate zero (0) if the elementary or unified district meets the substantial enrollment requirement (SER) or the district qualifies for waiver of the SER authorized by Education Code Sections 17017.6 and 17017.7 (c).
- Indicate zero (0) if applicant is a high school district.

~~3.—Operational Grants (OG)—Enter the number of students in grade groups K-6, 7-8, 9-12, non-severe or severe that were included in the latest report by the California Department of Education (CDE) pursuant to Education Code Section 42268 for that district, less the number of pupils at a school on multi-track year round enrollment (MTYRE) calendar that has a density of at least 200 pupils per acre when the district has at least 40 percent of its enrollment on MTYRE as of the date of determination of the existing school building capacity of the district.~~

~~4.3. Total Line 1 and Line 2 – Report the **greater of the** totals of grade groups K-6, 7-8, 9-12, non-severe and severe **for on line 2 or 3. This represents the “existing school building capacity” of the district, the HSAA or Super HSAA.**~~

~~5.—**Total**—Enter the total of lines 1 and 4. This represents the “existing school building capacity” of the district, the HSAA or Super HSAA.~~

## GENERAL INFORMATION

This form is used by the School District to calculate the district's eligibility for new construction and modernization funding under the School Facility Program (SFP). The business address entered on the application should be the location that the school district wishes the Office of Public School Construction (OPSC) to mail all correspondence regarding this application.

### Part I

Complete to designate or change the authorized district representative and/or alternate. Should this be the case, complete the school district information, identify the district representative(s) in Part I and complete the district certification information at the bottom of the form, including the date the district's governing board took appropriate action.

### Part II

Complete for new construction baseline eligibility determination. This part is also used to request an adjustment to an approved new construction baseline eligibility as a result of subdivisions (f), (k) and (l) of Section 1859.51 due to either errors or omissions of information submitted by the district when it requested the initial baseline eligibility, because of a reorganization election that has changed the classroom inventory of the district or to change the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading. The following documentation is necessary to determine new construction baseline eligibility and must be submitted with this form:

- A completed Form SAB 50-01 based on the latest enrollment data.
- A completed Form SAB 50-02.

### Part III

Complete for modernization baseline eligibility determination at a specific site. Districts must be able to provide a drawing of the site where eligibility for modernization is generated with its request for an eligibility determination. The drawing must identify all permanent and portable classrooms on the site and their ages. If the district intends to use the square footage method in Option B, the drawings must also identify the square footage of all facilities on the site.

Part III is also used to request an adjustment to the approved baseline eligibility at a specific site as a result of subdivisions (c), (d), (e), (g), (i), and (k) of Section 1859.61 due to one or more of the following:

- an increase in enrollment,
- additional facilities becoming at least 20/25 years old,
- facilities becoming eligible for an additional modernization apportionment, for permanent school buildings every 25 years after the date of its previous apportionment or for portable classrooms every 20 years after the date of its previous apportionment,
- because of errors or omissions of information submitted by the district when it requested the initial baseline eligibility for the site, or
- to change the classroom inventory that was reported at the time the district requested its initial determination of existing school building capacity as a result of special day class loading,

- a replacement of a facility that was previously deemed eligible for modernization but subsequently replaced in a project funded with local funds with no participation from the State. The district should submit a site diagram indicating the replaced facilities and a copy of the contract for construction or acquisition of facilities.

The following documentation is necessary (if not previously submitted to the OPSC) to determine modernization baseline eligibility and must be submitted with this form (as appropriate):

- Site diagram of school where modernization funding is requested. The diagram must indicate the ages and number of all permanent and portable classrooms on the site in accordance with the gross classroom inventory as provided by Section 1859.31.
- If the modernization eligibility will be determined by Option B, the site drawings must also include square footage and/or dimensions of all buildings on the site.

It is not necessary to complete Part III if the district is only requesting funding for new construction and it is not necessary to complete Part II if the district is only requesting funding for modernization.

A district may request that eligibility for new construction or modernization be reviewed and approved by the Board pursuant to Section 1859.20 prior to submitting Form SAB 50-04 to the Board.

For a list of the documents that must be submitted in order for the OPSC to deem an eligibility request for new construction or modernization complete and ready for OPSC processing, consult the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov).

## SPECIFIC INSTRUCTIONS

### Part I – District Representative Information

Enter the name(s) of district employee(s) that can act on behalf of the district's board. A consultant who is on contract with the district to communicate with the OPSC on behalf of the district's board may be listed. The designee of the Superintendent of Public Instruction shall file modernization applications on behalf of the California Schools for the Deaf and Blind.

### Part II – New Construction Eligibility Determination

Indicate if this request is for a new or adjusted eligibility determination. Enter the district-wide information unless filing on a High School Attendance Area (HSAA) or Super HSAA basis. The enrollment projection and the existing school building capacity data are obtained from information reported and determined on the Form SAB 50-01 and the Form SAB 50-02. Once the OPSC has verified the information provided on these forms, it will automatically be transferred to this form to determine the district's eligibility for new construction. The district may manually enter the information from these forms and compute its eligibility; however, it may be adjusted by the OPSC based on verification of Form SAB 50-01 and Form SAB 50-02.

1. Enter either the fifth-year or the tenth-year projected enrollment as shown in Part I of Form SAB 50-01 for grades K–6, 7–8, 9–12 and for the total of non-severe and severe special day class (SDC) projected enrollment.

# ELIGIBILITY DETERMINATION

## SCHOOL FACILITY PROGRAM

SAB 50-03 (REV 06/08/03/09)

2. Enter the amounts on Form SAB 50-02, Part III, line 53 for grades K–6, 7–8, 9–12, non-severe and severe.
3. New construction eligibility (i.e., the “baseline eligibility”) is determined by subtracting the existing school building capacity (line 2) from the projected five year enrollment (line 1). Report negative numbers in brackets.

Adjustments to the district’s new construction baseline eligibility will be made by the OPSC pursuant to Section 1859.51. Contact your project manager at the OPSC for the adjusted baseline eligibility for future request for new construction grants.

### Part III – Modernization Eligibility Determination

Modernization eligibility is calculated based on information at a specific site when modernization SFP grants are requested within the district. Therefore, completion of Form SAB 50-01 and Form SAB 50-02 are not needed to determine eligibility for modernization funding. Since the eligibility is site specific, the district must submit a separate Form SAB 50-03 for each site for which it is requesting modernization funding. Indicate if this request is for new baseline eligibility determination or for an adjustment to an approved baseline eligibility as a result of Section 1859.61.

The district may use one of two options to calculate its modernization eligibility at a specific site within the district. The district may select only one option at a time to calculate its modernization eligibility at any given school site. The district may switch options at a later date, if it results in a net gain in eligibility at the site, regardless of whether a funding application has been submitted. Hence, for purposes of adjusting modernization eligibility to include non-classroom buildings previously modernized under the Lease-Purchase Program, a district may switch options for the purposes of obtaining additional modernization apportionments as provided by Section 1859.78.8. To assure timely processing of the application, districts must provide a drawing of the site (if not previously submitted to the OPSC) where modernization funds are generated with the eligibility request to the OPSC. The drawing must identify all permanent and portable classrooms and their ages on the site. If the square footage of Option B is selected, the drawings must also identify the square footages of all facilities on the site. For purposes of determining the age of the building for modernization funding, the 25/20 year period shall begin 12 months after the plans for the building were approved by the Division of the State Architect (DSA); or in the case of permanent or portable classrooms previously modernized with State funds, which are eligible for an additional apportionment, the 25/20 year period shall begin on the date of its previous modernization apportionment. Any drawing that includes classrooms eligible for an additional apportionment pursuant to Section 1859.78.8 should specify both the date the classroom’s plans were originally approved by the DSA and the date of its previous modernization apportionment.

1. Enter the school site name from the California Public School Directory published by the California Department of Education.

#### Option A

2. Enter the number of permanent classrooms by grade level at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 that are at least 25 years old and include any

permanent classrooms not previously reported that have become at least 25 years old. If the school is a 6–8 middle school only, then report all classrooms at the 7–8 grade level. If this request is to adjust the classrooms reported for non-severe or severe pupil loading, the total classrooms reported must be equal to the classrooms reported at the time of the district request for initial modernization baseline eligibility. In no event may the number of classrooms reported for non-severe or severe pupils exceed the number of classrooms needed to house non-severe and severe pupils as reported on line 6 using loading standards of 13 for non-severe and 9 for severe classrooms. For purposes of the California Schools for the Deaf and Blind, the loading standard for these severe pupils shall be 9.

3. Enter the total number of portable classrooms by grade level at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 that are at least 20 years old and include any portable classrooms not previously reported that have become at least 20 years old. If the school is a 6-8 middle school only, then report all classrooms at the 7–8 grade level. If this request is to adjust the classrooms reported for non-severe or severe pupil loading, the total classrooms reported must be equal to the classrooms reported at the time of the district request for initial modernization baseline eligibility. In no event may the number of classrooms reported for non-severe or severe pupils exceed the number of classrooms needed to house non-severe and severe pupils as reported on line 6 using loading standards of 13 for non-severe and 9 for severe classrooms.
4. Add lines 2 and 3 by the grades shown.
5. Multiply line 4 by 25 for K–6, 27 for 7–8 and 9–12, 13 for non-severe and 9 for severe.
6. Enter the latest California Basic Educational Data Systems (CBEDS) enrollment for the school site identified as it would have been reported utilizing the criteria in Parts A, C and D of Form SAB 50-01. Report continuation high pupils as 9–12. If the school is a 6–8 middle school only, report 6th graders as 7–8.
7. Modernization eligibility (i.e., the baseline eligibility) is the lesser of each column of lines 5 or 6.

#### Option B

2. Enter the total number of permanent classrooms at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 or all permanent square footage at the site that is at least 25 years old.
3. Enter the total number of portable classrooms at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 or all portable square footage at the site that is at least 20 years old pursuant to Section 1859.60.
4. Add lines 2 and 3.
5. Enter the remaining number of permanent and portable classrooms at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 or all remaining permanent or portable space that is under 25/20 years old.
6. Add lines 4 and 5.
7. Determine the percentage of space on the site that is at least 25/20 years old by dividing line 4 by line 6. Round to four decimal places.

**ELIGIBILITY DETERMINATION**  
**SCHOOL FACILITY PROGRAM**

8. Enter the latest CBEDS enrollment for each grade group at the school site identified as it would have been reported utilizing the criteria in Parts A, C and D of Form SAB 50-01. Report continuation high pupils as 9–12. If the school is a 6–8 middle school only, report 6th graders as 7–8.
9. Modernization eligibility (i.e., the baseline eligibility) is determined by multiplying line 7 by each grade group reported in line 8. Round up.

Adjustments to the District's modernization baseline eligibility will be made pursuant to Section 1859.61. These adjustments will be made by the OPSC. Contact your project manager at the OPSC for the adjusted baseline eligibility for future requests for modernization grants at the specific site.

## GENERAL INFORMATION

Once the Board has determined or adjusted the district's eligibility for either new construction or modernization funding, the district may file an application for funding by use of this form. The Board will only provide new construction funding if this form is submitted prior to the date of occupancy of any classrooms included in the construction contract. If the district has a pending reorganization election that will result in the loss of eligibility for the proposed project, the district may not file an application for funding until the Board has adjusted the district's new construction baseline eligibility as required in Section 1859.51. This may be accomplished by completion of Form SAB 50-01, Form SAB 50-02 and Form SAB 50-03.

For purposes of Education Code Section 17073.25, the California Department of Education (CDE) is permitted to file modernization applications on behalf of the California Schools for the Deaf and Blind.

Requests for funding may be made as follows:

# APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 04/08/03/09)

- Written confirmation from the district's career technical advisory committee indicating that the need for vocational and career technical facilities is being adequately met within the district consistent with Education Code Sections 51224, 51225.3(b), 51228(b), and 52336.1.

Prior to acceptance of an application for funding that includes a financial hardship request, the district must have its financial hardship status "pre-approved" by the Office of Public School Construction (OPSC). To apply for a financial hardship "pre-approval", consult the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov).

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov).

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

## SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at [www.opsc.dgs.ca.gov](http://www.opsc.dgs.ca.gov) "PT Number Generator."

### 1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment).
