

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, February 22, 2006

ALTERNATIVE EDUCATION GRANT

PURPOSE OF REPORT

To present a report on the adequacy of the Alternative Education Excessive Cost Hardship Grant.

DESCRIPTION

At the March 2004 State Allocation Board meeting, the Board approved new and amended School Facility Program Regulations to provide an Excessive Cost Hardship Grant for Alternative Education schools. The Board directed Staff to review the Alternative Education funding activity after approximately one year from the effective date of these provisions to determine the adequacy of this funding method.

STAFF COMMENTS

Staff has reviewed the funding activity specific to the Alternative Education Excessive Cost Hardship Grant and has determined that there is insufficient data to make a determination of grant adequacy, as it is still early in the application/funding process. Eleven applications (see Attachment) were apportioned between May and December 2005, totaling approximately \$12.2 million. Of the 11 projects, funds have been released for five projects between June and November of 2005.

Due to the unavailability of pertinent data, Staff recommends that a follow-up report be made to the Board once the close-out process has been completed for this group of projects.

RECOMMENDATIONS

1. Accept this report.
2. Direct Staff to bring back a report on the adequacy of the Alternative Education grants when the close-out audit for the above referenced projects is complete.

BOARD ACTION

In considering this Item, the State Allocation Board accepted this report. In addition, the Board requested staff to present a report on the loading standards for alternative education schools and on the funding when projects' audits are complete, at a future Board meeting.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, February 22, 2006

PIGGYBACK CONTRACTS AND PUBLIC CONTRACT CODE COMPLIANCE RELATED TO
PERMANENT MODULAR SCHOOL FACILITIES

PURPOSE OF REPORT

To present a follow up report regarding piggyback contracts and Public Contract Code (PCC) compliance relative to modular school facilities for installation on permanent foundations.

DESCRIPTION

At the February 2005 State Allocation Board (SAB) meeting, the Board requested that Staff request a formal opinion regarding the legality of the use of PCC Section 20118 to acquire and install factory built modular building components that result in the assembly of permanent schools without further competitive bid.

AUTHORITY

PCC Section 20118

Notwithstanding Sections 20111 and 20112, the governing board of any school district without advertising for bids, if the board has determined it to be in the best interests of the district, may authorize by contract, lease, requisition, or purchase order, any public corporation or agency, including any county, city, town, or district, to lease data-processing equipment, purchase materials, supplies, equipment, automotive vehicles, tractors, and other personal property for the district in the manner in which the public corporation or agency is authorized by law to make the leases or purchases. Upon receipt of any such personal property, provided the property complies with the specifications set forth in the contract, lease, requisition, or purchase order, the school district may draw a warrant in favor of the public corporation or agency for the amount of the approved invoice, including the reasonable costs to the public corporation or agency for furnishing the services incidental to the lease or purchase of the personal property.

PCC Section 20111

School districts are required to competitively bid any contract equal to or greater than:

- \$50,000 for non-public works contracts identified as the purchase or lease of equipment, materials, or supplies; non-construction related services; or repairs or maintenance that would not be considered public contracts
- \$15,000 for public projects (as defined under PCC Section 22002 to include the erection, alteration or renovation of a publicly owned or leased facility).

The districts with contracts that meet or exceed the above cost parameters are required to let the contract to the lowest responsible bidder, and ensure that the bidder presents a form of security (such as a bonded surety).

STAFF COMMENTS

Staff has received the Attorney General's office opinion (see Attachment), which concludes, "A school district may not without advertising for bids, contract with another public agency to acquire factory-built modular building components for installation on a permanent foundation." At the January 2006 SAB meeting, a board member requested that all contracts for modular construction on a permanent foundation signed as of January 25, 2006 must be competitively bid in order to retain or receive funding consideration by the Board. In addition, Staff was requested to notify all school districts and county offices of education of the Attorney General's opinion and of the impact to project apportionments.

It is important to note that the Attorney General's office opinion is in regard to modular building components, which refers to a facility comprised of multiple pre-manufactured building components, which may include as an example a separate wall and floor system that are transported to a site where all components are installed on a permanent foundation. The opinion does not address portable or relocatable classrooms as defined by Education Code Section 17070.15(j), which typically are factory-built as two complete building modules that are simply connected on-site and placed on temporary foundations.

STAFF COMMENTS (cont.)

Last year after the initial report was presented to the SAB in February 2005, Staff sent out an advisory to all districts and county offices of education. The advisory notified districts that the Board expressed concern and questioned the legality of piggyback contracts for modular facilities on permanent foundations, and referred districts to the details of the report. Currently, to ensure that districts are aware of the interpretation of the law and the January 25, 2006 effective date, Staff has posted an advisory to the Office of Public School Construction (OPSC) Web site. In addition, Staff has sent out a mass mailer to all Superintendents, and included an Advisory Action article in the January 2006 edition of the OPSC Advisory Actions Newsletter, which was mailed to all county offices of education and all districts within the State of California.

Staff has received numerous calls from districts, architects, and modular construction companies regarding the Attorney General's office opinion. The overall concern is the impact on construction contracts that are in the process or construction contracts that districts were planning to piggyback in the near future to address immediate housing needs. As indicated by the Board, those projects that have construction contracts signed prior to January 25, 2006 will still be considered for funding. Therefore, the districts' concern lies with those projects where the district was planning to piggyback in the near future to address immediate housing needs.

RECOMMENDATIONS

1. Accept the Attorney General's Office opinion.
2. Direct Staff to provide additional notices to ensure that school districts are aware that all contracts for permanent modular construction signed after January 25, 2006 must be competitively bid in order to receive funding consideration by the Board.

This Item was approved by the State Allocation Board on February 22, 2006.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, February 22, 2006

SCHOOL FACILITIES NEEDS ASSESSMENT GRANT PROGRAM REPORT

PURPOSE OF REPORT

To provide a progress report regarding the School Facilities Needs Assessment Grant Program report submittals and to present a select summary of the data on the reports that have been submitted to date.

BACKGROUND

Senate Bill (SB) 6, Chapter 899, Statutes of 2004 (Alpert), as a part of the settlement agreement in the case of Williams vs. California, established the School Facilities Needs Assessment Grant Program. SB 6 allocated \$25 million for local educational agencies (LEA) with eligible schools to perform a one-time assessment of school facility needs, which were to be submitted to the Office of Public School Construction (OPSC) no later than January 1, 2006.

STAFF COMMENTS

Pursuant to SB 6, 2,060 needs assessments were required statewide based on eligibility certified by the LEAs, of which 15 have been or will be rescinded for various reasons. The majority of the rescissions were as a result of SB 512, Chapter 577, Statutes of 2005 (Committee on Education), which removed the county-operated schools from the list of schools required to complete the assessment as published by the California Department of Education. Of the remaining required assessments, 1,961 have been submitted to the OPSC. Therefore, 84 assessments have not been submitted, of which 16 are in progress and 68 have not been started.

Attachment A lists the LEAs that have not submitted a needs assessment report for an eligible school(s). From the onset of the program, the OPSC provided continuous reminders and outreach to all LEAs involved in the program. Recently, the OPSC staff also contacted the LEAs listed on Attachment A and provided necessary assistance to ensure compliance. As a result of the telephone outreach, 22 LEAs responsible for 78 reports, plan to submit the assessments within 30 days of this report.

Attachment B lists the LEAs by county that submitted the needs assessment reports. The information in each of these reports is presented as reported by each LEA and is subject to variability due to the differences in inspectors' judgments.

The full details of the assessment reports submitted to date are currently available to be viewed on the OPSC Web site. Specifically, Section V of the needs assessment report identifies the "Necessary Repairs" at each site school site as identified by each particular inspector that was hired by the LEA to complete the needs assessment report. Based on the reports that have been submitted to date, the total of all the necessary repairs at all the eligible sites is approximately \$803 million and those costs are shown for each LEA on Attachment B. Some of the repairs identified by the independent inspectors may be eligible for funding through the Emergency Repair Program.

RECOMMENDATION

Accept this report.

BOARD ACTION

In considering this Item, the State Allocation Board accepted this report. In addition, the Board requested staff to provide a status update on the outstanding reports in three months.
