EXECUTIVE OFFICER'S STATEMENT

The Executive Officer informed the Board that there was an increase in new construction funding applications. It was stated that the last day to submit a new construction funding request based on 2006/2007 enrollment data was October 31, 2007, and that funding requests received after this date must utilize 2007/2008 enrollment data. It was reported that for the month of October, the OPSC received 116 new construction applications which was a substantial increase to the average of 27 new construction funding applications received each month.

The Executive Officer also informed the Board that: 1) the proposed regulatory amendments for the School Facility Joint-Use Program will be presented to the Board at the January 2008 SAB meeting; 2) the final filing date for the Career Technical Education Program was October 31, 2007, the OPSC received 183 applications representing a total of approximately \$209 million, and the OPSC anticipates presenting these projects for SAB funding consideration and approval at the February 2008 SAB meeting; and 3) the final date for school districts to submit applications for the first funding cycle of the Overcrowding Relief Grant Program is January 31, 2008, and the OPSC anticipates that the projects will be presented to the SAB for funding consideration and approval at the April 2008 SAB meeting.

Lastly, the Executive Officer informed the Board that the 2007 Green California Schools Summit and Exposition was held in Pasadena, CA, on December 4-6, 2007, and there was about 2,000 people in attendance. The OPSC joined with the California Energy Commission to present information on the High Performance Incentive Grant Program and with the Division of the State Architect to present on grid neutral schools.

CONSENT ITEMS

Generally, Ms. Moore will recuse herself from voting on Elk Grove Unified School District agenda items. However, due to a limited number of SAB members and in order for the Board to maintain its quorum, Ms. Moore was required to vote on the entire consent calendar, as well as the remainder of the agenda. In considering this item, the Board approved the consent calendar as presented.

Deferred Maintenance Program Funding

Mr. Dave Walrath, representing the Small School Districts Association, addressed the Board concerning the funding of extreme hardship projects for small school districts. He asked the Board to consider dedicating funds from alternative revenue sources (i.e., unused site proceeds and proceeds from the sale of portable classrooms). The Board requested that staff present an item at a future SAB meeting once sufficient alternate funds become available to address the unfunded extreme hardship projects.

Class B Construction Cost Index – Eight California Cities

Mr. Tom Duffy, representing the Coalition for Adequate School Housing (CASH) organization, addressed the Board in support of the Ten Western States construction cost index. He indicated that CASH was meeting with the Lee Saylor Group and looking into the prospect of a California schools construction cost index which could be utilized by the Board. In considering this item, the Board approved the staff's modified recommendation which was to adopt the Marshall & Swift Ten Western States Class B Construction Cost Index to be used for the 2008 annual grant adjustments. The Board requested that the issue be revisited in one year. Further, the question was raised as to whether an appropriate index existed that measures the cost of school construction versus other types of construction.

SPECIALS/APPEALS (cont.)

Grant Adequacy Update

Ms. Denise Callahan, representing the Macias Consulting Group, presented an update to the Board regarding the study of the adequacy of the new construction grants. Mr. Edgar Cabral, representing the Legislative Analyst's Office (LAO), addressed the Board and indicated that the LAO has reviewed and provided feedback on the methodology and stated that the LAO would be attempting to replicate the results of the Macias Consulting Group analysis to ensure accuracy.

The following individuals addressed the Board regarding this issue:

- Mr. Tom Duffy, representing the CASH organization;
- Mr. Lyle Smoot, representing the Los Angeles Unified School District;
- Mr. Mike Ricketts, representing the County Superintendent of Schools; and
- Mr. Stephen English, representing the Advancement Project.

There were concerns expressed by the individuals above, such as the study was continuing in light of the transparency and methodology issues not being adequately resolved; that other studies are currently underway that are related to grant adequacy and once there are results, those will be shared; and that although the facilities that house students through alternative education programs are not included as part of the study, the OPSC was encouraged to make sure that this issue does get addressed.

There was much discussion by the Board regarding this issue. The Board requested staff to continue to keep open lines of communication regarding the process being utilized and to provide updates to the Board. Additionally, the Board requested staff to follow-up with the County Superintendent of Schools for purposes of conducting a separate study on the costs to construct county schools.

REGULATIONS

EXECUTIVE OFFICER'S STATEMENT

The Executive Officer informed the Board that the Governor has signed a number of legislative bills that affect the programs administered by the SAB. It was stated that there is a report that will be presented later on in this SAB Agenda. The Executive Officer was also pleased to announce that among the legislative bills chaptered was Senate Bill 132 that repeals the January 1, 2008 sunset date for the new construction grant increases that were provided in July 2006. This means that the seven percent increase for elementary/middle school pupils and the four percent increase for high school pupils will remain in effect.

The Executive Officer also informed the Board that later on during this public meeting, the Macias Consulting Group will be presenting an update to the Board on the development of the proposed methodology for its analysis of the costs to construct schools. The proposed methodology was previously presented in a publicly noticed open meeting on October 5th and public comments were heard at that time. Additionally, written comments were accepted through October 10th.

Lastly, with respect to the wildfires in Southern California, the Executive Officer indicated to the Board that the OPSC was developing a plan to address any short-term housing needs that may arise, and that there is approximately 60 relocatable classrooms that could be redeployed. The OPSC also contacted four manufacturers of relocatable classrooms, many of whom indicated that they could produce new units within one week if necessary. Additionally, the OPSC is being flexible and working with the impacted school districts during this time of crisis.

The Board discussed the project for the Bass Lake Joint Union Elementary School District that had been inadvertently omitted as a joint-use project from its bond measure, but was specifically identified in the approved District's facilities master plan. The Chair requested a roll-call vote and the motion, which would approve the project for the Bass Lake Joint Union Elementary School District, failed per the following votes:

REPORTS***Legislative Update***

The Board accepted the report.

Office of Public School Construction Work Plan for Improving the Financial Hardship Program

The following individuals addressed the Board regarding the Work Plan for the Financial Hardship Program:

- Mr. Dave Walrath, representing the Small School Districts Association;
- Ms. Anna Ferrera, representing the County School Facilities Consortia; and
- Mr. Tom Duffy, representing the CASH organization.

The Board accepted the report clarifying the inclusion of the Legislative Analyst's Office, and representatives from the Fiscal Crisis Management Assistance Team (FCMAT), a representative from the School Fiscal Services within the CDE, and the SAB's Assistant Executive Officer be added to the Advisory Committee.

Grant Adequacy Methodology

Ms. Denise Callahan, representing the Macias Consulting Group, presented the proposed Grant Adequacy methodology to the Board. The following individuals addressed the Board voicing their concern with the proposed methodology:

- Mr. Tom Duffy, representing the CASH organization;
- Mr. Lyle Smoot, representing the Los Angeles Unified School District;
- Mr. Dennis Dunston, representing HMC Architects;
- Mr. Ernie Silva, representing the Association of California Construction Managers; and
- Mr. Stephen English, representing the Advancement Project.

There were concerns expressed by the individuals above such as the issue of transparency, that a study was not needed to justify the six percent, that the CDE was not included as a party to the study, how the four components could assist in the study, that the 60 projects defined as complete schools from the CDE may add value to the study, and three of the four components of the study are irrelevant.

Mr. Richard Lyon, representing the California Building Industry Association, addressed the Board in support of the proposed methodology indicating it would provide a straightforward and impartial review.

Since this was a report only, the Board requested that staff agendize this issue for future discussion when ready and prepare to discuss the methodology and the transparency of the methodology.
