

REPORT OF THE EXECUTIVE OFFICER  
State Allocation Board Meeting, May 22, 2002

FEDERAL SCHOOL REPAIR AND RENOVATION PROGRAM  
APPORTIONMENTS

PURPOSE OF REPORT

- To apportion qualifying Federal School Repair and Renovation Program (FRP) applications.
- To notify the grant recipients of the specific timelines for the apportionment applicable to the grant.
- To notify the grant recipients of assurances required by the Federal Government.
- To notify the State Allocation Board (SAB) of unencumbered FRP funds.

BACKGROUND

On January 23, 2002, the SAB adopted emergency regulations for the implementation of the FRP for the repair and renovation of school buildings. In accordance with the Regulations, funding can now be made for applications submitted by April 15, 2002.

The funding available for each of the funding categories before transfers and the dollar amount requested in the applications, is as follows:

<b>Funding Category</b>	<b>Funding Availability Per Regulations</b>	<b>Dollar Value of Applications Received</b>
A – High Poverty LEAs	\$ 57,598,159	\$ 65,740,345
B – Rural LEAs	\$ 7,000,000	\$ 17,112,311
C – All Other LEAs	\$ 38,255,695	\$ 79,248,434
Total	\$ 102,853,854	\$ 162,101,090

STAFF COMMENTS

*Application Apportionments*

As shown in the chart above, the total dollar amount of the applications received for each category exceeds the funds distributed to those categories. The FRP Regulations require that the applications must be approved and apportioned in descending order of priority points, commencing with the application having the highest number of priority points in each category. Additional funds may be transferred from Category C to either Categories A or B as necessary to fully apportion an application that had the highest number of priority points without being fully apportioned.

All applications received have been designated into one of the three funding categories. For example, if an LEA meets the definition of high poverty and rural, the application was considered for an apportionment in the following order: Category A, Category B, then Category C. If the application did not have enough priority points to be funded in Category A, the application was placed and considered for an apportionment under Category B. If the application did not have enough priority points to be funded in Category B, the application was then placed and considered for an apportionment under Category C.

STAFF COMMENTS (cont.)

The Attachment lists, by funding category, all applications that can be funded in Category A and B. Category C includes all remaining applications, including the applications from Category A and Category B not receiving grants from the respective categories, that that can and cannot be funded.

*Unencumbered Administration Funds*

The Federal Government allows the reservation of not more than .75%, or \$1,038,928, of the FRP allocation for purposes of administering the program. The OPSC has determined that \$275,000 will be needed to administer the program. A balance of \$763,928 is available and has been added to the total FRP appropriation for the purpose of awarding grants.

*Unapportioned Funds*

The following chart outlines the funding available for appropriation:

<b>Program Appropriation</b>	<b>\$ 103,617,782</b>
Funding for Category A	\$ 57,974,385
Funding for Category B	\$ 7,093,251
Funding Remaining for Category C	\$ 38,550,146

After all necessary funds are committed in Category A and B as specified in the Regulations, \$ 38,550,146 remains for appropriation in Category C. Because of the funding requirements delineated in the Regulations, \$454,520 still remains available for appropriation after all eligible grants are made. The OPSC analyzed apportioning these remaining funds to the unfunded high poverty, rural, and all other remaining LEA applications with the highest priority points, however, there is not an equitable method in which to make additional apportionments. Therefore, these funds will remain unallocated.

*Timelines on Apportionments*

The FRP Regulation Sections 1859.215 and 1859.216 clearly stipulate when fund releases must occur. However, the Regulations are silent as to when contracts must be signed. The Federal law requires that grant recipients sign contracts for services and work no later than September 30, 2003, in order to retain these grant funds. There is no provision to extend this deadline. Therefore, it is critical that grant recipients be specifically aware of the required timelines as follows:

- May 21, 2003                      Last day to submit first fund release for 50% of grant funds
- September 30, 2003            Last day to sign contracts for services or work
- November 16, 2003            Last day to submit final fund release for remaining grant funds

STAFF COMMENTS (cont.)

*Certifications on the Application for Federal Grant (Form SAB 60-01)*

As part of the Regulations, the *Application for Federal Grant*, Form SAB 60-01, requires that the LEA make a certification that it “will comply with all laws pertaining to the repair and/or renovation of its school facilities.” While the certification is intended to cover compliance with all applicable laws, including but not limited to the Public Contract Code, Government Code, and Education Code, all too numerous to delineate on the Form SAB 60-01, the Federal Government does require that some specific assurances be made. Several of the assurances have been incorporated into the regulations and/or forms. However, the assurances on the attached Exhibit A are being provided to ensure that the grant recipients are specifically aware of those assurances not included in the regulations or certifications.

LEGAL ANALYSIS

The SAB Legal Counsel has opined that the Federal law provides sufficient direction regarding the required assurances and timeline requirements and that an amendment to the Regulations is not necessary.

RECOMMENDATIONS

1. Apportion the applications in each category identified in the shaded portion of the Attachment.
2. Direct the OPSC to notify the LEAs receiving funds of the specific assurances and timeline requirements.

EXHIBIT A

The Federal Government requires that all grant recipients make the following assurances:

- As applicable, the assurances in Office of Management and Budget Standard Form 424B (Assurances for Non-Construction Programs), relating to the legal authority to apply for assistance; access to records; conflict of interest; merit systems; nondiscrimination; Hatch Act provisions; labor standards; flood historic preservation; protection of human subjects; animal welfare; lead-based paint; Davis-Bacon; Single Audit Act; and general agreement to comply with all applicable Federal laws, executive orders and regulations.
- With respect to the Certification Regarding Lobbying, the LEA certifies that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making or renewal of Federal grants under this program; that the LEA shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," when required (34 C.F.R. Part 82, Appendix B); and that the LEA shall require the full certification, as set forth in 34 C.F.R. Part 82, Appendix A, in the award documents for all sub awards at all tiers.
- As applicable, comply with the:  
Education Department General Administrative Regulations (EDGAR)
  - 34 CFR Part 76 -- State-Administered Programs, except section 76.600
  - 34 CFR Part 77 -- Definitions that Apply to Department Regulations
  - 34 CFR Part 80 -- Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, including the procurement provisions
  - 34 CFR Part 81 -- General Education Provisions Act--Enforcement
  - 34 CFR Part 82 -- New Restrictions on Lobbying
  - 34 CFR Part 85 -- Governmentwide Debarment and Suspension (Non-procurement) and Governmentwide Requirements for Drug-free Workplace (Grants)
- The grant recipient has or will have title or other interest in the project site(s), including right of access, and that the site(s) will continue to be used for educational purposes for a reasonable time period after the completion of the project(s).
- Except for modifications necessary to meet the American with Disabilities Act (ADA) or section 504 of the Rehabilitation Act standards and asbestos abatement or removal in private, nonprofit elementary or secondary schools with child poverty rates of at least 40%, the grant will not be used for repair, renovation, or construction of facilities or any part of a facility that will be used for religious worship, instruction, or proselytization.
- Competent architectural engineering supervision and inspection will be maintained at the project's site to ensure that the work conforms to the drawings and specifications.
- Grant projects will be a) functional; b) economical; and c) not elaborate in design or extravagant in the use of materials, compared with the facilities of a similar type constructed in the State or other applicable geographical area.
- Standards under the Occupational Safety and Health Act of 1970 (Public Law 91-576), or State and local codes, if they are more stringent, will be observed in the design and completion of the projects.

(Continued on Page Five)

EXHIBIT A (cont.)

- Grant projects will comply with any applicable requirements under the ADA and section 504 of the Rehabilitation Act of 1973 regarding accessibility for the disabled.
- As applicable and to the extent feasible, the design and completion of grant project(s) should maximize efficient use of energy. Standard 90.1-1989 and 90.2-1993 of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers, Inc. will be applied in the design and completion of the grant projects.
- The "Earthquake Hazards Reduction Act of 1977" (Public Law 95-125) and Executive Order 12699, "Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction" will be followed, as applicable.
- The facilities will be operated and maintained in accordance with applicable Federal, State, and local requirements.
- When the project is completed, sufficient operational funds will be available for effective operation and maintenance of the facilities.
