

School Facility Program  
 Project Information Worksheet  
 Permanent Construction by School Facility Program Service Region  
 (in millions)

The graphic displays the permanent square footage construction versus the total square footage construction (which includes modular and portable construction) for 980 new construction projects apportioned from January 2008 through August 2016 and for which a Project Information Worksheet (PIW) was submitted.\*

\* The submittal of a PIW is required at three times for a new construction project: 1) the full grant fund release; 2) the first annual expenditure report (one year following the fund release); and 3) the final expenditure report (when the project is deemed complete). This graphic does not include any apportioned project for which a fund release was not submitted when the data was compiled. The 980 projects include 168 financial hardship apportionments at the final adjusted grant funding stage.
