The December 2012 School of the Month was South Tahoe High School in Lake Tahoe Unified School District, El Dorado County. The district received State funding through the Career Technical Education Facilities Program, the Overcrowding Relief Grant and Joint-Use programs for various projects on the site.

#### Facilities Included:

- A 29,300 square foot classroom building, which replaces 12 portable classrooms, that houses laboratories, science, math, and Advancement via Individual Determination (AVID) classrooms; as well as the home of their dental program.

- A 27,300 square foot Career Technical Education building hosts automotive/transportation and construction technologies pathway curriculums.

#### Career Technical Education

State Funds	\$12.56 million

- The Tahoe Arts and Design Academy, that includes a 275-seat theater, Foley sound stage, tiered orchestra room, green-screen studio and state-of-the-art editing suites.
- A 30,000 square foot joint-use student union building that is a gathering place available for use by the school and the City of South Lake Tahoe. The interior space can be configured as one large classroom or as three separate areas replete with drop-down screens, smart boards, wireless network, and blackout privacy curtains.

- The new Sports Medicine Academy, which will open in August 2013, includes space for hand therapy, whirlpool therapy, physical therapy and conditioning, and swimming. The academy will offer students two career paths: athletic fitness trainer or physical therapist. Students will be able to take courses leading to certification in first aid, CPR (cardiopulmonary resuscitation), AED (automated external defibrillator), and personal training.
