Performance & Environmental Standards Work Group – Mission

A Performance and Environmental Standards (PES) Workgroup assists customer procurement professionals in improving policies and practices and achieving best value procurements.

Performance & Environmental Standards Work Group- Goals

- Assist procurement professionals in achieving best value procurements
- Provide transparent process for standards development.
- Prioritize standards development based on audit reports, agency purchase plans and regulatory changes impacting commodities the state buys
- Increase the state's purchase of products lowering the state's carbon footprint
- Collaboration & coordination with other state and federal agencies, programs and work groups

Performance & Environmental Standards Work Group- Responsibilities

- Attend a monthly meeting
- Adhere to Procurement Authority Round Table (PART) Bylaws.
- Collaborate and establish a PES action plan.
- Participate in decision making process.
- Provide information related to team member's department purchases, programs and/or government initiatives.
