

Small Business Reporting

Patricia.Connors@dgs.ca.gov

Q – Are all the reports available online?

A – The reports cannot be posted unless we have approval from the legislature. For the last 2 years the consulting services report has not been approved.

Q – Has any legislative proposals been put forward to streamline reporting requirements?

A – Yes, we have and are making efforts to streamline and hopefully will be successful in the future.

Q – With the new revised Std. 810, after inputting data the percentage calculation is incorrect. Will this be corrected?

A – The percentage is rounding down and not up and the OSP forms coordinator is looking at the form to change the calculation.
