**MANUFACTURER'S SUMMARY**  
**References and Instructions**

The California Legislature has declared that it serves a public purpose and is a benefit to the State to encourage business investment, promote job development, and to facilitate job maintenance in economically distressed areas of the state. It is the intent of the Legislature to further these goals by providing appropriate preferences to California based companies submitting bids or proposals for state contracts to be performed at worksites in economically distressed areas when the contract is for goods or services in excess of \$100,000. To obtain preferences, the bidder must demonstrate that a minimum 50% (for goods contracts) or 90% (for services contracts) of the projected employee labor hours necessary for the contract will be performed within the economically distressed area. This includes manufacturer's employee labor hours.

If the bidder requests TACPA, EZA, and/or LAMBRA contract preferences<sup>1</sup>, the completed *Manufacturer's Summary* must be signed by both the manufacturer<sup>2</sup> and the bidder for each requested preference. The information provided on this form will be used to evaluate the total manufacturing employee labor hours required to complete this contract.
