RE: Mandatory Statewide Contract # 1-14-91-02-A for Bulk Gasoline, Diesel #2, Diesel Red dye and Ethanol (E-85)

Effective January 1, 2015, and in response to the new California Cap-and-Trade regulations, a new fee will be listed on all invoices for Bulk Gasoline, Diesel #2, Diesel Red dye and Ethanol (E-85) purchases. This fee is called "CAR" or "Cap at the Rack" fee. The fee will be listed on invoices under the CAR Cost fee. If the fee is not present, contact the vendor to have the invoice reissued with the CAR cost line item included. The CAR cost is based on an OPIS calculation and may change daily. The Daily and Weekly Fuel postings will have the CAR cost listed.

The Department of General Services/Procurement Division has updated the user instructions for contract no. 1-14-91-02-A for Bulk Gasoline, Diesel #2, Diesel Red dye and Ethanol (E-85) to reflect this change. The updated User Instructions Revision 2 can be found at:

<https://www.bidsync.com/DPX?ac=agencycontview&contid=107938>

This is an Environmentally Preferable Purchasing or "green" contract because E-85 is an alternative fuel. Visit the [DGS Buying Green Website](#) for additional EPP information.
