**RE: FI\$Cal Statewide Procurement Implementation Timeline**

---

The purpose of this Broadcast Bulletin is to provide an update on the timeline for implementation of the statewide procurement functions of the Financial Information System of California (FI\$Cal).

FI\$Cal announced earlier this month that the go-live date for statewide procurement functionality has been shifted from summer 2015 to December 2015. Statewide procurement functionality includes the existing BidSync eProcurement functionality; California State Contracts Register (CSCR), the State Contracting and Procurement Registration System (SCPRS), Small Business/Disabled Veteran Business Enterprise (SB/DVBE) certification, searching for certified SB/DVBEs and searching for Leveraged Procurement Agreements (LPAs). Users should continue to use the BidSync eProcurement system until implementation of the same functionality is available in FI\$Cal.

This extended timeline will result in a new enhanced procurement portal for state customers, vendors and the public that will include a responsive design for ease of use on smart phones and tablets. In the upcoming months the Department of General Services and FI\$Cal will continue to work together on the development of the policies and procedures needed to support reengineered business processes, enhancements to end-user training, and additional outreach to users.
