

How to Purchase through an EPP Item Supplemental Job Aid 1.0

Date: 09/30/2016

Target Audience: Department Buyer, Department Advanced Buyer, and Department PO Processor

Purpose: The purpose of this supplemental job aid is to provide basic instructions on how to purchase through an EPP Item.

Introduction:

In order to designate a purchase as Environmentally Preferable (EPP), the purchase must fulfill one or more of the following criteria:

- 1. Acquired through an EPP Item**
2. Meet a DGS Purchasing Standard
3. Include Third-Party Environmental Certification(s)
4. Include the availability of a Take-Back program
5. Be State Agency Buy Recycled Campaign (SABRC) compliant
6. Get recorded in FI\$Cal as EPP

What is an EPP Contract?

To assist state departments with the purchase of products that meet EPP criteria, the Department of General Services Environmentally Preferable Purchasing Program collaborates as part of a procurement team to develop EPP Contracts. An EPP Item, in turn, is an Item in FI\$Cal that contains EPP vetted criteria.

The simplest way to buy green and implement EPP is to purchase through EPP Items. Purchasing EPP Items ensures that your purchase meets EPP criteria and that the EPP information is recorded in FI\$Cal.

EPP contracts and EPP Items are only those that have been designated EPP/Green, by the Environmentally Preferable Purchasing Program. Access EPP Contracts at, either:

If the product being purchased from an EPP contract is indicated as an EPP Item on the contract, the purchase is considered EPP.

When to use EPP Items:

Use EPP Items whenever one is available and meets your purchasing needs. Buying through an EPP Items is the simplest way to buy green.

How to Purchase Through an EPP Item

1. Navigate to EPP Contracts. Locate a contract that applies you are purchasing.
 - a. If there is an applicable contract, proceed to step 2.
 - b. If there is not, you can still look for other ways to buy green, such as incorporating Third-Party Environmental Certifications, Take-Back availability, and/or SABRC.
2. Read the contract user instructions to search for green product(s) and learn how to make the purchase.
3. Make the purchase.

When making a purchase, departments must adhere to all applicable laws, regulations, policies, best practices, and purchasing authority requirements, e.g. California Codes, California Code of Regulations, State Administrative Manual, Management Memos, and State Contracting Manual Volume F, 2 and 3, as applicable.

How to Record Environmentally Preferable Purchases in FI\$CAL:

If purchasing through an EPP Item, no further action is required. As applicable, EPP Items will incorporate Third-Party Environmental Certifications, Take-Back, and/or SABRC requirements. All EPP data fields will automatically be applied in FI\$Cal.

References & Resources:

Buying Green Guide DGS publishes a best practices manual – the Buying Green Guide, online at www.dgs.ca.gov/buyinggreen. The guide provides state buyers and suppliers with a single source of up-to-date EPP Contracts, DGS Purchasing Standards, Bid specifications, and buying tips. It also provides access to laws, regulations and standards that shape procurements and provides transparency to the work DGS does.

The **EPP FI\$Cal Job Aids** are a comprehensive “how-to” series that provides detailed instructions on how to buy green and how to record those purchases in FI\$Cal. Visit the Buying Green in FI\$Cal page at
