Commercially Useful Function (CUF)

What?

- Definition and applicability

Why?

- Purpose and legislative intent

Who?

- Roles and responsibilities

How?

- Resources

Next?

- What's next?

What is CUF?

A SB/DVBE certified firm...

❑ Performs CUF when is doing all of the following:

- ✓ Executing a distinct element of the work of the contract.
- ✓ Performing, managing, or supervising the work.
- ✓ Performing work that is normal for the firm's business services and functions.
- ✓ Negotiating price, determining quality and quantity, ordering, installing, and making payment.
- ✓ Not subcontracting a portion of the work greater than expected by industry practices.

❑ Does NOT perform CUF if:

- ✓ An extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of SB/DVBE participation.
- ✓ Not being used to perform the work as stipulated in the bid.
- ✓ No longer used to provide good/services listed in initial bid response.

CUF and SB/DVBE Certified Firms

All California-certified SBs and DVBEs (contractors, subcontractors and suppliers) bidding on / participating in a state contract, regardless of the procurement approach or the payment method used, must perform CUF!

CUF Purpose, Legislative Intent

Purpose

- To provide reasonable assurance that no SB/DVBE is used as a pass-through on contracts.
- To prevent artificial/incidental SB/DVBE participation to meet the bid requirements.
- To ensure SB/DVBE incentives/preferences provided at bid evaluation are for services/goods that are part of the contract.

Authority

SB 1510 (Chapter 421, Statutes of 2012) strengthened CUF requirements in:

- SB - Government Code 14837(d)(4)(A)
- DVBE - Military and Veterans Code 999(b)(5)(B)
