STATEMENT OF WORK

Automated Risk and Needs Assessment Tool - COMPAS

This Statement of Work ("Agreement") reflects the services to be provided by Northpointe, hereinafter referred to as the "Contractor," for the California Department of Corrections and Rehabilitation (CDCR), hereinafter referred to as the "State".

SCOPE

The Contractor will provide the Correctional Offender Management Profiling for Alternative Sanctions (COMPAS) licensing and fifteen (15) months Support and Software Customization Requests. The licensing is based on the number of sites plus the number of assessments completed during the fifteen month period. The institution licenses cover the 12 Reception Centers. Approximately 70,000 inmates enter State Prison each year with a sentence averaging 25 months. Assessments will be run on 100% of the offenders entering CDCR at entry and once a year for re-classification. The Institution Support will include the following services:

- Services available via phone, email, or web.
- Support Services available during a 5X8 business day (excluding published holidays).
- 4-business-hour response time for critical issues.
- Availability of the most current releases and versions of BMC Service Desk Suite including any fixes, patches, or workaround products.
- Northpointe will provide on-going COMPAS software customization and modifications to meet the needs of the California Prison system. Customization will include design, development, testing and documentation. All desired customization will be approved by the California Prison, Division of Education, Vocation and Offender Programs staff before development is conducted

The Contractor's support will help the State streamline the product support model by providing quick resolution to questions, trouble shooting solutions, and updates that will help lead to the highest application availability possible.

PERIOD OF PERFORMANCE

The term of this Agreement will be effective upon the date the Purchase Order is signed through June 30, 2009.

CONTRACTOR REQUIREMENTS

- The Contractor shall assist the State in implementing the most effective IT service and support tools.
- The Contractor will attempt to accommodate changes to the State's fluid organization structure with point-and-click customization tools.
- The Contractor will provide updates, hot fixes, and whitepapers that are deemed appropriate for the State's support environment.

STATE RESPONSIBILITIES

The State will provide:

- Access to proper areas during the installation, including areas to the database, web server, network and workstations
- Connectivity between servers and workstations
