Information Technology Department**

STATEMENT OF WORK

Plato Data Analyzer

This Statement of Work ("Agreement") reflects the services to be provided by CPR Technologies, Inc., hereinafter referred to as the "Contractor," for Atascadero State Hospital, hereinafter referred to as the "ASH".

SCOPE

This is an annual renewal of the Support & Maintenance contract for the PLATO Data Analyzer.

The Contractor will provide PLATO Data Analyzer Support & Maintenance. This contract will cover telephone support and assistance, online support, online training, and up-to-date on-line operating manuals and all program updates from CPR Technologies, Inc.

PLATO Data Analyzer is mission critical to the Atascadero State Hospital's operation and support of this product is necessary.

The Contractor's support will help ASH manage the collected data by providing quick resolution to questions, trouble shooting solutions, and updates that will help lead to the highest quality possible.

DESCRIPTION OF GOODS/SERVICES

The DMH has previously purchased a commercial-off-the-shelf (COTS) health information management system referred to as PLATO Data Analyzer in two hospitals, Patton and Atascadero. The software automates, expands, standardizes, and expedites the hospital medical record data collection and auditing processes.

Health Record Technicians, or other appropriate hospital staff, are required to collect, record, analyze, and report audit findings relative to medical record documentation. Internally, audit processes are ongoing, and are required by hospital management to demonstrate compliance in conducting performance improvement activities. Externally, the US Department of Justice mandates that State hospitals, including the DMH,

extensively audit documentation required by the Recovery Model treatment process and report the outcomes for all individuals remanded to the state hospitals. The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) regulations also requires the performance and reporting of ongoing medical record review activities. The PLATO Data Analyzer assists the DMH with these reporting obligations.

PERIOD OF PERFORMANCE

The term of this Agreement will be effective the date the Purchase Order is signed, through 5/1/2010.

CONTRACTOR REQUIREMENTS

- The Contractor shall assist ASH in maintaining and supporting the Plato Data Analyzer System at ASH by providing Support and Maintenance.
- The Contractor will provide updates, hot fixes, and whitepapers that are deemed appropriate for Atascadero State Hospital's support environment.

DELIVERABLES

- The supplier shall provide support, updates, and upgrades for one (1) year after the completion/acceptance date.
- The supplier must provide technical support to Information Technology staff via a toll-free telephone number during regular working hours Monday through Friday, 800 a.m. to 5:00 p.m.
- The supplier must provide access to online support, online training, and up-to-date on-line operating manuals to various members of the hospital staff as designated by each of the hospital contacts.

BILLING INFORMATION

The Contractor shall submit invoices (including the purchase order number) to the following address:

Atascadero State Hospital
Attn: Accounts Payable, Debbie Montgomery
PO Box 7002
Atascadero, CA 93423-7002
