Updated 12092016

The agencies listed below are current partners that honor the state of California's Small Business and/or Disabled Veteran Business Enterprise (SB/DVBE) certification as acceptance into their individual respective business enterprise programs. Certain partner agencies may also have specific local eligibility requirements that must be met. You may visit each agency's website for more information on their individual programs.

Utility companies are not reciprocity partners. However, they do honor the DVBE certification. California Public Utilities Commission (CPUC) requires utility companies to provide DVBE usage reports (PUC § 8283-8284). The CPUC Clearinghouse has an aspirational goal of 1.5% versus the State's mandatory goal of 3%. Utility companies listed are for DVBE business development purposes.
