

Update on Implementation of SB 115 DVBE Incentive

The passage of Senate Bill 115, effective January 1, 2006, provides for an incentive for disabled veteran business enterprises per Military & Veteran Code Section 999.5(a). A committee consisting of representatives from the State of California and the supplier community has met to discuss the incentive and has reviewed a proposed approach. A phased implementation approach is planned that will commence with the Department of General Services, Procurement Division and those with delegated purchasing authority. Once regulations are adopted the incentive will be incorporated statewide.
