Subject: Uniform Closure Letter for California Department of Forestry – Former San Marcos Forest Fire Station, 236 Pico Avenue, San Marcos, California

Chief Porter:

This letter confirms the completion of a site investigation and corrective action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, this agency finds that the site investigation and corrective action carried out at your underground storage tank(s) site is in compliance with the requirements of subdivisions (a) and (b) of section 25296.10 of the Health and Safety Code and with corrective action regulations adopted pursuant to section 25299.3 of the Health and Safety Code and that no further action related to the petroleum release(s) at the site is required.

Claims for reimbursement of corrective action costs submitted to the Underground Storage Tank Cleanup Fund more than 365 days after the date of this letter or issuance or activation of the Fund's Letter of Commitment, whichever occurs later, will not be reimbursed unless one of the following exceptions applies:

- Claims are submitted pursuant to section 25299.57, subdivision (k) (reopened UST case); or
- Submission within the timeframe was beyond the claimant's reasonable control, ongoing work is required for closure that will result in the submission of claims beyond that time period, or that under the circumstances of the case, it would be unreasonable or inequitable to impose the 365-day time period.

This notice is issued pursuant to subdivision (g) of section 25296.10 of the Health and Safety Code.

Please be advised that:

HENRY ABARBANEL, CHAIR | DAVID GIBSON, EXECUTIVE OFFICER

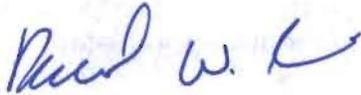

2375 Northside Drive, Suite 100, San Diego, CA 92108-2700 | (619) 516-1990 | www.waterboards.ca.gov/sandiego

1. Any land use changes for the site may require reevaluation to determine if the changes pose an unacceptable risk to public health;
2. Any contaminated soil encountered or excavated as part of future subsurface construction/utility work must be managed in accordance with all applicable legal and regulatory requirements; and,
3. All future construction on the project area must include post construction best management practices to control storm water runoff in compliance with the US Environmental Protection Agency Guidance Document: "Technical Guidance on Implementing the Stormwater Runoff Requirements for Federal Projects under Section 438 of the Energy Independence and Security Act."

In the subject line of any response, please include the reference code **T0607302261:lthotakura**. For questions or comments, please contact Ms. Lalitha Thotakura by phone at 619-521-3002, or by email at lalitha.thotakura@waterboards.gov.

Respectfully,

DAVID W. GIBSON
Executive Officer
