**SYSTEM AND SERVICES ACQUISITION**  
(Revised 6/14)

**5315.1**

**Policy:** Each state entity shall determine the information security requirements (confidentiality, integrity, and availability) for its information assets in mission/business process planning; determine, document and allocate the resources required to protect the information assets as part of its capital planning and investment control process; and, establish organizational programming and budgeting documentation.

For all information system acquisitions, the state entity shall identify security functional, strength and assurance requirements; security-related documentation requirements; a description of the information system development and intended operational environments; and acceptance criteria.

**Implementation Controls:** NIST SP 800-53: [System and Services Acquisition \(SA\)](#)
