

SAM – REAL ESTATE SERVICES DIVISION

ASSET MANAGEMENT BRANCH

PROGRAM SUMMARY, RESOURCES, AND CONTACTS

1310

(Revised 6/2014)

The Asset Management Branch (AMB) ensures the optimum use of the state's real estate assets to meet program needs and to derive the maximum value from the state's surplus property. AMB also provides regional and facility planning services which present strategies for most effectively meeting the state's office space needs.

AMB's Customer Services Management unit is the initial point of contact for requesting new RESD projects. The Customer Services Manager (CSM) serves as a liaison to RESD for state agencies. Customers seeking RESD services should contact their RESD CSM or call the Customer Services Management unit at (916) 376-1800.

More information about the Asset Management Branch is available on the AMB website at: <http://www.dgs.ca.gov/resd/Programs/AssetManagement.aspx> or by telephone at (916) 376-1800.
